## G. O. P. WANTS CLEAR SLATE BEFORE 1928

Coolidge Party Anxious to  
Dispose of Old Scandals  
Before Election

PRESIDENT NOT BLAMED

Teapot Dome Leases to Go to  
Supreme Court for Final  
Decision

BY DAVID LAWRENCE

Copyright, 1926, by the Post Pub. Co.  
Washington—Never shall it be said  
that the Coolidge administration coun-  
tenanced any wrong-doing by Repub-  
licans in high office—this is the motive  
which has been uppermost in the  
minds of those in the department of  
justice, who are striving hard to con-  
vict a former attorney-general, Harry  
M. Daugherty, and to invalidate the  
oil leases made by a former secretary  
of the interior, Albert B. Fall.

The legal battle over the Teapot  
Dome leases is long drawn out but the  
government by its victory in the fed-  
eral court at St. Louis, moved its bat-  
tle still further toward the highest  
court in the land where a final adju-  
dication will be reached.

COOLIDGE NOT BLAMED

Mr. Coolidge began his term in 1923,  
about the same time that the public  
was shocked by the revelations in the  
Teapot Dome oil scandal. During the  
campaign in 1924 the Democrats en-  
deavored to make an issue of the Teapot  
Dome revelations but the voters  
refused to straddle Mr. Coolidge with  
any blame and accepted his promise  
that Republicans or Democrats would  
be prosecuted with relentless vigor. So  
far as the cases are concerned, the  
administration has not allowed mat-  
ters to drift but has pressed for action  
through every lower court and made  
an appeal promptly to the higher  
courts wherever an adverse decision  
was given.

As for the Daugherty case, the gov-  
ernment has been slowly collecting ev-  
idence and District Attorney Buckner  
in New York is handling the matter  
to the satisfaction of officials here be-  
cause he is drawing as closely as pos-  
sible the web of circumstantial evi-  
dence on which the indictment was  
based.

DEPENDS ON JURY

Whether Mr. Buckner obtains a  
conviction depends on one jury, of  
course, but the publicity given to the  
case by the prosecution is considered  
here ample refutation of any sugges-  
tion that the former attorney-general  
is being whitewashed.

This much is true—if the adminis-  
tration had not proceeded with the  
case the political speakers would have  
been making capital out of it this fall  
and unquestionably in 1928 because no  
matter how effectively it might be ar-  
gued that Mr. Coolidge knew nothing  
of the events which took place in the  
alien property custodian's office, or in  
the department of the interior, he has  
been and is responsible now for the  
operations of the department of jus-  
tice which has been prosecuting  
charges of bribery, fraud and conspir-  
acy.

The hope of the government officials  
is that so far as the department of  
justice is concerned all the cases will  
have been cleared up before the 1928  
campaign begins so that instead of a  
liability, the activity of the department  
may be an asset.

## WIRE TICKS

New York—(P)—Special permission  
has been given by federal authorities  
for Earl Carroll to go to Europe. His  
bail was doubled to \$10,000, and he  
promised to return upon two weeks  
notice should matters relating to his  
sentence for perjury about his bath-  
tub party make it necessary. His ap-  
peal is pending.

Moscow—Because rats killed a baby  
in a hospital, a woman physician and  
two nurses have been sent to jail.  
The physician's defense for failure to  
treat the baby was that it was doomed  
to die and she was about to make a  
major operation on another patient.

New York—Friends of Margaret  
Matzenauer, opera singer, are unable  
to recognize her and she is the hap-  
piest woman in the world. She has  
lost fifty pounds. Dinning, baths in  
Gormany and massages did it.

London—Every time an installment  
of the latest novel of H. G. Wells  
comes out there is another sensation.  
The latest is the characterization of  
King George as "worthy, conscientious  
and entirely unmeaning and un-  
interesting son of plump old Edward  
VII." The author insists he is not  
responsible for the opinion of char-  
acters in the book.

## SAW AIMEE, ORMISTON AT HOTEL

AIMEE IS COOL UNDER FIRE

Aimee Semple McPherson, famous evangelist, lost not a jot of her composure when she sat in a Los Angeles courtroom and heard herself accused of staying with Kenneth G. Ormiston in the Carmel (Calif.) "love nest" cottage. Her mother, Mrs. Minnie Kennedy, broke down, however. This picture shows Aimee (left) and Mrs. Kennedy as they sat together in court.

## Oh, Father Adam! They'd Take Your Fig Leaves Now

Cleveland, O.—(P)—Forty-four  
Western Reserve university freshmen  
combatants in the annual sophmore-  
freshman class rush, were held in a  
police station Saturday after sophomores  
had captured them one by one and  
relieved them of their clothing.  
Outnumbered by the fledglings, the  
sophomores started the "fight" early  
by capturing their opponents, remov-  
ing their clothes and imprisoning  
them in a barn in the rear of a fra-  
ternity house. Neighbors became

alarmed at the outcries of the captiv-  
es and called the police.  
When the bluecoats opened the barn  
door they were met by a rush of nude  
"frosh" whom they dragged from be-  
neath porches and behind hedges and  
took to the police station under cover  
of patrol wagons.  
The freshmen rallied about their  
captives and stormed the station with  
overcoats, blankets, barrels  
and newspapers, under which the  
fallen warriors made their escape.  
Some joined the fight, others watched  
it discreetly from the windows of  
closed cars. The sophomores won.

## PORTAGE MAN TO BE INDEPENDENT

Staudenmayer, Defeated at  
Primary, Will Run for State  
Senator

Madison—(P)—Nomination papers  
were filed in the secretary of state's  
office Saturday by George Stauden-  
mayer, Portage farmer, as candidate  
for state senator from the Twenty-  
seventh district on the Progressive-  
Republican ticket.

Mr. Staudenmayer will oppose Robert  
Caldwell, local banker, who defeated  
him in the primary Sept. 7.  
The Socialist-Labor party will have  
candidates in the field for United  
States senator and governor. Richard  
Koepke, Milwaukee newspaperman,  
has filed as candidate for United  
States senator, and Alex Gordon, Mil-  
waukee, for governor.

## MUST PAY INCOME TAX ON LOTTERY PRIZE, RULING

Washington, D. C.—(P)—Amounts  
received from a lottery, regardless of  
whether it is legal, are subject to the  
income tax, it was ruled Saturday  
by the board of tax appeals. A. L.  
Voyer of Wisconsin, won a share in  
the lottery of the Elks lodge of Chip-  
ewa Falls in 1921. While his share  
was \$11,000 he collected only \$4,000  
that year and the remainder was held  
in trust by counsel employed to pro-  
tect his interests. The board held  
that Voyer had to pay tax on the  
\$4,000 in his return for 1921.

## MICHIGAN YOUTH RISKS LIFE TO AID BOAT CREW

Milwaukee—(P)—William Benton,  
Benton Harbor, Mich., 22-year-old  
member of the crew of the Jerome II,  
risked his life early Saturday, swim-  
ming ashore to summon help when the  
boat went on the rocks at the entrance  
to Milwaukee harbor. Jumping into  
the lake, Benton swam the length of a  
city block to shore and obtained help  
from the coast guard which succeeded  
in releasing the boat little damaged.

## IN SAME ROOM, MAID WITNESS TELLS COURT

Radio Operator Is Identified  
from Photographs by Ho-  
tel Employee

Los Angeles—(P)—The little theatre  
where the Aimee Semple McPherson  
court drama has been holding the  
boards during the last five days was  
dark Saturday. An intermission in the  
preliminary hearing of the Angelus  
temple pastor and her mother, Mrs.  
Minnie Kennedy, on conspiracy  
charges was called Friday when Mu-  
nicipal Judge Samuel Blake adjourned  
the trial until next Monday. The tiny  
courtroom, which had been packed to  
standing room capacity during the  
opening scene of the dramatic trial  
was deserted Saturday by all but a  
few attaches and an assiduous janitor.  
Friday's curtain dropped as oppos-  
ing attorneys clashed over admission  
of testimony concerning the finances  
of Angelus temple. Judge Blake put  
an end to the argument by adjourning  
court.

LINK NAME WITH ORMISTON  
The name of Kenneth G. Ormiston,  
former Angelus temple radio man, a  
co-defendant in the conspiracy charges  
and now a fugitive from justice, was  
further linked with that of the evan-  
gelist Friday when three states wit-  
nesses declared they had seen the pas-  
tor and the missing man together on  
various occasions.  
Agnes Callahan, chambermaid, testi-  
fied that Mrs. McPherson had come to  
the fashionable Ambassador hotel here  
at least six times during the summer  
and fall of 1925. On each occasion the  
witness said, she had seen Ormiston  
on the same floor as that on which  
Mrs. McPherson was stopping. On  
two occasions she saw Ormiston enter  
the evangelist's room. The maid iden-  
tified Ormiston from photographs and  
added that he had walked with a  
limp.

AIMEE WAS AT HOTEL  
Arthur L. Denman, assistant man-  
ager of the hotel, testified he had seen  
Mrs. McPherson in the house many  
times and that she had a preference  
for room 330. He was shown a photo-  
graph of Ormiston and said it re-  
sembled a man he had seen on the  
third floor of the hotel during Christ-  
mas week last year.

Thomas Scott Melville, doorman at  
the Clark hotel, recently baptized by  
Mrs. McPherson as a member of her  
congregation, testified he saw the evan-  
gelist enter that hostelry on May 18,  
five and a half hours before she dis-  
appeared at Ocean Park.  
Mrs. McPherson Friday night de-  
nied she had visited the hotel with  
Ormiston except on one occasion when  
she was a speaker at a radio  
program.

## HOTELMEN ELECT HEAD AT MILWAUKEE MEETING

Milwaukee—(P)—L. P. Daniels,  
Wisconsin Rapids, was continued in  
office as president of the Wisconsin  
State Hotel association, which closed  
its annual session here Friday. Oth-  
er officers re-elected were John Weber,  
Waukesha, vice-president; and Her-  
man O. Kietzsch, Milwaukee, secre-  
tary and treasurer. Directors include  
E. D. Hunt, LaCrosse; H. A. Veit,  
Fond du Lac and A. C. Witteborg.

## MEANWELL QUITTING? COACHES REFUSE TO COMMENT ON RUMOR

Madison—(P)—Dr. Walter E.  
Meanwell, University of Wisconsin  
basketball coach, and George  
Little, director of athletics, Satur-  
day declined to confirm or deny  
a report that the former was  
"though" as the result of a dis-  
agreement over basketball players  
trying out for football.  
According to the report, the dis-  
ference arose over George Hotch-  
kiss and Eddie Power, varsity  
basketball men, and Henry Kowit-  
zyk, a sophomore candidate for  
the squad. Meanwell was report-  
ed as objecting to the three men  
seeking places on the football  
squad when they were prospec-  
tive basketball material.  
It was reported that after  
Hotchkiss, in reply to a question  
told Meanwell Saturday that he  
intended remaining with the foot-  
ball squad, the coach turned to  
Dwight Spooner, assistant coach,  
and said "here, you coach them  
I'm through."

## Motorcycle Officer And Wife Injured in Crash

Mr. and Mrs. Joseph Bayer, 781 W.  
Oklahoma-st., were cut by flying glass  
and badly bruised and shaken late  
Friday afternoon when Mr. Bayer took  
a ditch rather than strike a machine  
which stopped suddenly to avoid hit-  
ting a bicycle rider on the Menasha  
road. The Bayers were returning to

## SIGN 1,235 AS MEMBERS IN Y DRIVE

Set New Membership Record  
in Campaign Which  
Closed Friday

Cowboys of Red Triangle ranch  
completed the most successful mem-  
bership drive ever staged by the Ap-  
pleton Y. M. C. A. Friday night when  
the final reports of the roundup show-  
ed that 1,235 members had been se-  
cured in four days. Last year in the  
same number of days only 1,203 were  
signed up and 60 of these were  
guaranteed by the workers for later  
in the year. The goal of the drive  
was 1200 members and \$20,500. The  
money goal also was exceeded when  
\$20,584 poured into the ranch treas-  
ury in the four days. Beside the 1-  
235 members at least 25 more are ex-  
pected to be in next week. Fifteen  
college students are included in the  
number.

Outfit 1 of Arrowhead division,  
with W. E. Smith as foreman, se-  
cured the most members during the cam-  
paign. The division reported 199.  
Next came T. E. Orblison's outfit of  
Lone Star division with 106. H. P.  
Russell's men of Arrowhead division  
was third with 101. Arrowhead divi-  
sion was high in points and the Red  
side led the Blues.

In points Orblison's outfit topped  
the others with \$200. George Dame's  
men were next with 2,603 and third  
place honors went to Smith's youth-  
ful cowpunchers with 2,352. Smith's  
team was composed of members of  
the boys' division and as such solici-  
ted mostly boys. This brought them  
third place in points though getting  
the most members.

Lone Star division led on Friday  
with 123 members while the Red side  
beat the Blues with 160 to 148. Orblison's  
outfit was high for the day with  
50 members.  
Leaders of the drive were J. L.  
Johns, ranch boss; J. S. Reeves and A.  
C. Remley, side bosses of Red and  
Blue sides; J. L. Menzner, mule skin-  
ner; George F. Werner, general secre-  
tary and R. M. Eickmeyer, member-  
ship secretary. Mr. Eickmeyer planned  
the Red Triangle ranch idea. Division  
bosses were Frank Sager, Lone Star;  
Hugh G. Corbett, Crescent; H. H.  
Helbie, Arrowhead; George Packard,  
Diamond.

The final day saw 308 members  
brought in by the cowboys, the largest  
total of any day and the only one over  
300. Totals for the days were:  
Tuesday—269; Wednesday—252;  
Thursday—229; Friday—308; executive  
committee report—Thursday, 139; Fri-  
day, 38; grand total, 1,235.

Results of Friday's work:  
Arrowhead division—119 members;  
Diamond division—29 members; total  
for Blue side, 148 members.  
Lone Star division—123 members;  
Crescent division—37 members; total for  
Red side, 160 members.  
Results by teams:  
Lone Star division—Outfit 1, E. H.  
Wright, foreman, 8; outfit 2, John  
Trautman, 36; outfit 3, T. E. Orblison,  
50; outfit 4, Fred Treasler, 18; outfit 5,  
Joseph Mallory, 11; total 123.

Crescent division—Outfit 1, R. E.  
Carnegies, foreman, 6 members; outfit  
2, E. S. Godfrey, 10; outfit 3, C. T. An-  
derson, 15; outfit 4, V. B. Scott, 3;

## 5 DIE AS FRENCH PLANE CRASHES NEAR LONDON

Penhurst, Kent, England—(P)—Five  
passengers, the pilot and a mecha-  
nic were burned to death Saturday  
when a French passenger airplane, en-  
route to the Croydon airdrome, London  
crashed near here.

## NICARAGUAN REBELS CAPTURE U. S. BOAT AND SEAMEN, CHARGE

Panama—(P)—Fifteen American  
seamen of the tug Force, arrived here  
Friday on a United States  
destroyer from Nicaraguan waters.  
They were asserted to have been  
victims of Nicaraguan revolution-  
ary agents in the United States.

It is alleged the tug was ordered  
by its owners to sail from New  
York to San Diego, Calif., by way  
of the Panama canal but that later  
it was instructed to call for fuel  
and provisions at Puerto, Mexico.  
There it is said to have been board-  
ed by Nicaraguan revolutionists,  
and after looting a cargo, allegedly  
ammunition was ordered to  
proceed to Nicaragua with revo-  
lutionary troops on board. The tug  
is said to have been used later for  
bombarding Nicaraguan seaports,  
but was finally piled up on the  
rocks 15 miles north of Bluefields,  
where the revolutionists abandoned  
the Americans with scant rations.

The castaways finally were re-  
scued by the United States cruiser  
Denver and sent to the canal zone  
on a destroyer. They will sail Sun-  
day for New York on the steamer  
Cristobal.

## CITY IS FLOODED FOR SECOND TIME

Railroads and Highways  
Again Tied Up as Cloud-  
burst Hits Jacksonville

Jacksonville, Ill.—(P)—A cloudburst  
which hit Illinois Friday night again  
flooded Jacksonville, tied up railroad  
traffic and made state roads almost  
impassable.

The city was plunged into darkness  
at 2:30 Saturday morning when the  
power plant of the Illinois Power and  
Light company was closed down.  
Hundreds of homes were flooded and  
residents remained up all night ready  
to escape from any flooding of the  
city such as the \$1,000,000 disaster of  
Sept. 8. Railroad traffic out of the city  
was demoralized. The bridge at Ar-  
rington again went out and the Wabash  
system detoured its trains via the Chi-  
cago and Alton to Murraysville to  
Springfield.

ANTI-PROHIBITION CLUB  
FILES ELECTION COSTS

Madison—(P)—Disbursements by  
the Association Against the Prohibi-  
tion Amendment, Inc., in Wisconsin  
during the Sept. 7 primary campaign  
were \$627.80, according to a prelimi-  
nary report filed in the office Sec-  
retary of State Zimmerman by the Na-  
tional headquarters of the association  
at Washington. The report explained  
that this did not include unpaid bills  
aggregating \$6,000 or \$7,000 for which  
it said statements had not been receiv-  
ed. Chief items in the report were  
printing and multigraph bills.

## MINNESOTA D. A. R. MAY MARK SISTERS' GRAVES

Duluth, Minn.—(P)—Regents of 47  
chapters gave annual reports at the  
closing session of the Minnesota D. A.  
convention Friday. Mrs. R. H.  
Hess, Madison, state regent, outlined  
the budget system used in Wisconsin.  
Mrs. J. E. Fogg of St. Paul introduced  
a resolution to mark the graves of  
Daughters of the Revolution, not  
more than 2 each year.

## KNICKERS! "NEVER!" SAY FAIR CHAMPIONS OF NATIONAL LINKS

Haverford, Pa.—(P)—Knickers?  
"Never," say the fair golfers who  
are good enough at the game to  
compete for national titles. "No  
woman could look well in knick-  
ers on the links," Miss Glenna  
Collet said. "Personally I've only  
seen one wearing them, and she  
couldn't play."

So though the members of the  
weaker sex have borrowed their  
brothers' heavy wool hose, bright-  
ly patterned hosiery made orna-  
mental with ringing designs and  
his jacket sweaters, the borrowing  
has stopped there.

Edith Cummings, soft beige and  
brown sweater and skirt ensem-  
bles, Bernice Wall's matching  
sweaters and large patterned  
Scotch wool stockings, Virginia  
Wilson's trim knitted sport dress-  
es all print femininity on their  
wearing despite their brotherly  
swiftness.

## RUTH'S HIT HELPS MATES DOWN CARDS

Pennock Pitches Wonderful  
Game After Getting  
Bad Start

ST. LOUIS FIGHTS HARD

Sherdel's Wildness Paves  
Way for Defeat in First  
Series Game

Yankee Stadium, New York—

A. P.—Herb Pennock held the  
Cardinals to three hits today,  
while his Yankee team mates led

outfield played a shallow outfield for  
Sherdel. Strike 1 swung. Strike two  
swung. Strike three. Out on three  
pitched balls, swinging wildly for the  
third. Douthitt up. Pennock took  
Douthitt's bunt and with a fast throw  
nailed his man at first. Southworth  
up. Ball one high. Southworth sent  
up a high foul to Severeld who took  
the ball near the screen. No runs, no  
hits no errors.

New York—Koenig up. Koenig sent  
a sharp single to left. Ruth up. Ruth  
tried to sacrifice but forced Koenig.  
O'Farrell to Theronow. Meusel up. Strike  
one called. Ball one outside. It was a  
pitchout but Ruth held first. Sherdel  
threw out Meusel at first. Ruth going  
to second it was the hit and run play.  
Ruth slid into second and time was  
called until his wearing apparel could  
be mended. This gave the crowd a  
big laugh. Gehrig up. Strike one called.

# VALLEY CITIES LOOK FAVORABLY ON SEWAGE PLAN

Decide on Another Meeting to  
Discuss Sanitation Pro-  
ject

First steps in the movement for a joint sewerage disposal plant for use of the municipalities between Neenah and Kaukauna were taken at a meeting of the mayors, engineers and representatives of the cities interested here Friday afternoon. The plan was explained by the attorney and engineer of the village of Combined Locks, the proposers of the project. Mayor Albert C. Rule of Appleton, was elected chairman of the permanent organization to consider further action and Joseph Doerflinger, president of the village of Kimberly, was elected secretary.

Because of the inability of C. M. Baker, sanitary engineer, to be present at the meeting, no definite action was taken, except to set the last week in October as the date for the next meeting of the committee. All cities and villages included in the project, except Neenah and Kaukauna, sent representatives to the meeting. These two cities had expressed their willingness to cooperate in the plan and had signed their intention of sending delegates.

The meeting is the result of action taken by the village board of Combined Locks, following the refusal of the state board of health to approve plans for a sewer system that would empty into the Fox river. State authorities told the village members that it was the policy of the state to allow new sewer lines to empty into the river and that in the future all cities now dumping their sewage into the river would be notified to stop the practice.

Combined Locks cannot afford to build a disposal plant, it was pointed out, and suggested that the cities and villages between Neenah and Kaukauna erect a large disposal plant near Kaukauna and build a main sewer line to carry the waste from all the cities.

A resolution asked Mayor Rule to call a meeting of the heads of the cities interested for an expression of the sentiment. It was pointed out by the engineers of Combined Locks that there was a drop of about 136 feet in the Fox river between Neenah and Kaukauna. The sewer line would be run along the bank of the river and the carrying capacity of the line would be increased by the tremendous drop.

The question of the cost of such a project was brought up by Mayor Rule and according to T. H. Ryan, at Neenah, a preliminary estimate, based on the meager facts on hand, shows that the approximate cost would be between \$550,000 and \$1,000,000.

A map showing the various municipalities interested in the project and their location on the Fox river had been prepared by the Combined Locks engineer, and this map was examined by the heads of the cities at the meeting. Another chart showing the drop in the river between Neenah and Kaukauna also had been prepared.

With the enormous cost of building a sewer line from Neenah and Kaukauna, Mayor Rule wondered whether it would be cheaper for the cities to help pay for this sewer than to build their own private plants.

The first step, it was pointed out, was to wait for an expression from the state sanitary engineer. Following his approval and the approval of the various city councils, the engineer would make a tentative survey to determine the cost of the project and also the cost of separate plans in each city. Thus the saving that would be made could be estimated.

Following the approval of the engineer's findings, attorneys for the municipalities would draw a bill for the legislature, that would divide the state into districts, which would allow these districts to cooperate in building a joint sewerage system.

A Guide To Reading  
Books are the greatest builders of happiness. They stand for education and culture in our lives. They are a resource that we can not afford to overlook.

The trouble is to find the right books to read and study. This has now been made easy by the American Library Association. It has prepared an authoritative list of "One Thousand Useful Books." The titles selected for this compilation have been chosen from the standpoint of the layman and the student who may wish suggestions for study along certain lines.

A copy of this valuable and instructive booklet is waiting for you. Fill in your name and address and enclose FOUR CENTS in stamps for return postage and handling.

## MUST GET PERMISSION TO ATTEND CONVENTION

Rural teachers desiring to attend the Northwestern Wisconsin Teachers' association convention at Oshkosh on Oct. 5, must procure permission from the school board of their district. It was reported Saturday morning. The rural schools will not officially be closed but precedent that little difficulty is encountered by instructors who wish to attend the technical sessions.

## GETS LEAVE OF ABSENCE SO HE CAN CAMPAIGN

Becher Not on County Pay-  
roll While He Seeks Of-  
fice

In order that he may run for the office of clerk of circuit and municipal court on the independent ticket without suffering the stigma that he is doing so as a paid employee of the county, Carl J. Becher, accountant in the highway commissioner's office has been granted a leave of absence dating back to October 1, and operative until the day after the general elections, it was announced Saturday morning.

The highway committee at the request of the candidate took official action on the request at a recent meeting.

Mr. Becher worked on his own time Friday and Saturday to arrange details so that his substitute can carry on the office work during his leave. It was stated.

During the time before the primaries when the accountant was seeking the nomination on the Republican ticket he paid the salary of the relief accountant, records of the office show.

## GRAHAM BROTHERS TRUCKS SUPPLANT AUSTRALIAN CAMELS

Cameles, those dependable beasts of burden, which have carried the wealth of the Orient since early Biblical days, are finding their usefulness in West Australia curtailed by the adoption of the motor truck. In the vast stretches of grazing land in West Australia where sheep raisers number their flocks by the hundreds of thousands, camel caravans for years have been the media in hauling the wool clip to the warehouses near the seacoast. The loads they were able to haul were considered large for such beasts, but their gait was slow and often rising markets got away from growers before they were able to make delivery of their wool clip. But this condition is rapidly passing. Adoption of Graham Brothers Trucks by these sheep raisers has enabled them to rush their wool clip more quickly to the marketing points and consequently convert it into money more readily.

This situation was disclosed by W. J. Winterbottom, Managing Director of the Winterbottom Motor Company, dealers for Dodge Brothers, Inc. at Perth, W. A. and Robert S. Harnden, Director of the Standardized Motors, Ltd., who, with Jack Kloster works, manager of the same company at Sydney, N. S. W. also Dodge Brothers Dealers are utilizing the factory of Dodge Brothers Inc., Detroit.

Mr. Winterbottom has the distinction of having imported the first Dodge Brothers Motor Car into West Australia. This was in 1915. Prior to this he saw the importation of the first American made automobile into Australia, back in 1907. He has been a resident of Perth for 29 years and this is his third visit to Detroit. "Wool and wheat are the mainstays of our economic life in West Australia," said Mr. Winterbottom. "Sometimes we have droughts, but these appear only to stabilize our farming industry. We do not have much rainfall in our section, nor have we any rivers of consequence to drain our lands. Our mountains are not very high and very little help from snow is expected."

"Our farmers are rapidly turning to the use of the motor car and truck. We do not have the fine concrete roads in our rural sections that you have in the United States. Many of our roads are macadamized and have been down for years."

"The cost of motor cars and trucks in Australia is practically 100 per cent greater than that in the United States. This is due to the heavy import tax and the heavy freight charges. Petrol or gasoline, costs approximately 60 cents a gallon for the State. We have no oil wells, although the Commonwealth has offered a subsidy of \$100,000 for anyone who drills in an oil well of good proportions. All our oil and gas must be imported. Gasoline comes in four gallon tin cans. Recently several American companies have opened gasoline and oil stations similar to those in the United States."

"Our sales of Dodge Brothers Motor Cars and Graham Brothers Trucks have steadily climbed annually until in 1925 we did a gross business of 1,366,403 pounds sterling of \$5,734,515. We have what is regarded as one of the finest motor car establishments in all the British Empire."

Rupert S. Harnden of the Standardized Motors Ltd. is just as enthusiastic over sales of Dodge Brothers Motor Cars and Graham Brothers Trucks in New South Wales. "We began handling Dodge Brothers Motor Cars back in 1912 and our first year's sales totaled 300 cars and trucks. We expect to sell 2,000 cars and trucks in 1926," he said.

"The Australians have much of the British conservatism in them and for this reason they wish dependability and sturdiness in their means of transportation. That is the reason Dodge Brothers Motor Cars and Graham Brothers Trucks have found such ready sales in our country," advised

## Storm Victims Suffer Bitterly, Letters Say

Letters from hurricane sufferers in Florida describing the chaos and need in the southern cities have been received by Appleton friends during the past week. Even food and shelter are almost impossible to hundreds of the residents of these blighted districts.

In Miami, one letter states, merchants and others who have food supplies have charged exorbitant prices, one man had to pay \$5 for a dozen sandwiches and 50 cents for a small can of pork and beans. However, the Red Cross was then trying to stop such profiteering, the letter went on.

Careful rationing of food stuffs was necessary in all of the hurricane districts, it would appear. Most places people who had were entirely willing to give to those who had not, but the actual scarcity of food was keenly felt.

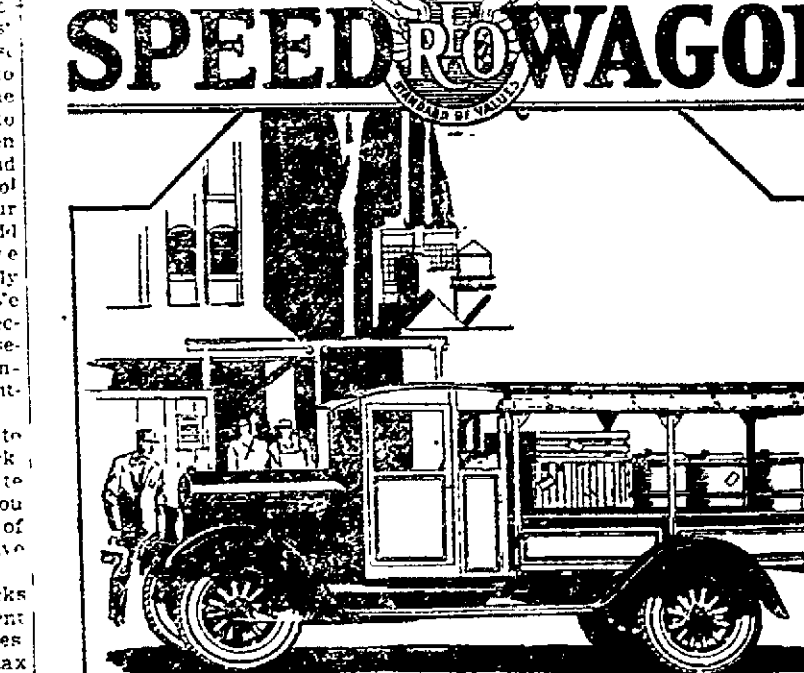

One family was said to be living in a house with no roof or ceiling, the water knee deep on the floors, and only one bed. Members of the household slept in relays, the letter told. A mother at Fort Lauderdale writes that she has heard nothing from her children in Miami, and that she is nearly prostrated worrying for their safety.

Reconstruction work is a 24 hour a day job, it was said, for the workers kept on by moonlight during the night. Houses and make shelters for the people, the letter continued, and the unselfishness of the men and women who had money or food was shown on every side.

## LEVITAN URGES DIRECTED PLAY FOR CHILDREN

State Treasurer Pleads  
for Supervised Play-  
grounds

Livingston—(AP)—A plea for supervised playgrounds for all Wisconsin children was made here Saturday by Solomon Levitan, State treasurer, speaking at the High school fair.

"It is alright for young folks to play," he said, "the better they play, the better they will work, and I believe in supervised playgrounds which give all children an equal chance for wholesome, constructive play. Athletics teaches you alertness and loyalty, and how to work together so as to win the game."

It may be said that the choice of our work or play is beyond our control—that as children we must do what our parents tell us to do, or, if we are not fortunate as to have those who love us plan for us, circumstances may throw us in evil surroundings. If this is true then more than ever you must train your judgment to choose the best that you find. If you keep taking the right path, it will sooner or later lead you on to the highway of success, even though it seems very rough at the start. It isn't our surroundings that help or hinder us, it is the way we let them affect our lives.

"It would seem that many people think their education is in proportion to the number of years they have spent in school. This however is a very limited sense of education. I think of education as being the effect upon me of every experience I have had. Using this definition as a basis, we can see that we are being educated constantly, and for this reason the kind of education we choose is very important."

"Children spend less than a third of

## COUNTY NURSE REPORTS ON SUMMER'S WORK

Expenses incurred by County Nurse Marie Klein during July, August and September were allowed at the first meeting of the county health committee at the courthouse Friday afternoon. Miss Klein outlined a tentative program of health work for the coming school year and submitted routine reports.

Much of the work of the summer, Miss Klein told the committee, was in checking up on tuberculosis cases which have been released from the county sanatorium as cured and in arranging for other phthisis patients to be given treatment.

General health talks and examinations have featured the nurse's efforts during the past month in rural schools, it was pointed out.

## WATER FILLS TRENCHES DUG FOR WATERMAINS

A hard luck jinx seems to be on the trail of the Tomasun company of Fond du Lac, which is laying water mains on E. Wisconsin-ave from N. Leominah-st to the railroad tracks. Great difficulty was experienced by the company in laying a sewer line on the same street because of quick sand.

This week the laying of water mains was started but heavy rains caused the water to run into the trenches and work has had to be temporarily abandoned. The water is six feet deep in some places.

their time in school, where their study is planned for them; but with many children, the remainder of their time is not planned for them by their parents, and they must choose, for themselves how they will spend their time. Will they choose to do those things which will develop the good in them? Or will they be attracted to ways of evil? A pool hall has an education after its kind for the young folks who go there, but is it the kind you want?"

## DAIRY MEN WILL RECEIVE AWARDS AT EXPOSITION

Owners of Exceptional Herds  
Will Be Given Recognition  
at Detroit Show

Madison—(AP)—Owners of 1,211 Wisconsin dairy herds will receive awards in recognition of the merits of their own cows at the National Dairy Exposition in Detroit, Oct. 6-13. A. J. Cramer, dairy specialist of the Wisconsin College of Agriculture, announced. Diplomas are awarded to owners of the qualifying herds.

The herds, which produced an average of 300 pounds or more of butter fat in one year, represent 123 of the 170 cow testing associations in Wisconsin, and about 35 per cent of the herds in the associations. Last year, Wisconsin had 913 herds of meritorious cattle from 125 associations, or 28 1/2 per cent of the total number of herds in the association.

The Holman association of LaCrosse county ranks first in the percentage of its herds that will receive recognition, 33 out of 36 having an average butter fat production of 337 pounds. It ranks third in average production.

The Allenton-Kohlsville association of Washington county ranks highest in butter fat production, with an average of 372 pounds. It ranks second in percentage of herds qualifying, having 21 out of 23.

The Cedarburg-Grafton association of Ozaukee county was second highest in butterfat production, with an average of 338 pounds from 29 of its 24 herds. The Richfield association of Washington county ranked fourth, with an average of 336 pounds.

One third of the herds produced an average of 500 pounds or more. Mr. Cramer said, and 71 herds produced between 400 and 500 pounds.

The herd with the highest production was that of George Schmidt of the Allenton Kohlsville association. The five cows in the herd averaged 581 pounds of butter fat.

Michigan is a strong competitor of Wisconsin for honors in cow testing. Mr. Cramer said. That state has 1,163 herds to receive recognition this year, representing about 99 per cent of the state's cow testing associations. Other states with more than 100 herds entered in the competition include: Minnesota, 501; Iowa, 353; Pennsylvania, 306; Indiana, 223; Ohio, 191; Illinois, 168; California, 159.

## WET WEATHER KEEPS FIRE RECORD LOW

The silver lining to the recent rain clouds which apparently are making an extended sojourn in the state has been found by the fire department. If continual downpours do nothing else they at least reduce the ordinary fire hazards to a minimum, records for the past month reveal. What few calls were registered for the apparatus were of a minor nature. The principal fire menace existing now is brought about through the careless building of fires in stoves and fireplaces that have not been in use for months but the danger of spark emission on roofs and spontaneous combustion configurations has virtually been eliminated by continued wet weather, it was pointed out.

## TRAFFIC AND PARKING BEFORE RAIL MEETING

Cleveland—(AP)—Representatives of city and state governments will meet with American Electric Railway association delegates here Oct. 4-5 to consider city and interurban transportation problems.

Traffic congestion relief will be one of the main topics. Parking regulations in congested areas will be one of the outstanding recommendations. Other subjects to be considered include coordination of rail line and bus service, financing and taxes.

stead," might be the caption for the treatise, it was whispered.

When interviewed Wednesday Mr. Shannon says his system is simple and in his case at least has proved an infallible way to gather a duck dinner.

"First," he related, "I make a trip up to Gilmore Lake, 2 1/2 miles north of Rhinelander, Wis., probably approximately 180 miles from Appleton. I have carefully packed the necessary hunting paraphernalia and arrange my time so that the weekend is virtually passed without sleep so that I can get in a few hours of sport.

"Then, I hunt diligently without even seeing a duck.

"When the time comes I return home without even seeing a duck.

"When the time comes I return home—go out in the back yard and—this last time I shot three Teal."

The first time that Mr. Shannon went hunting in his yard he got six ducks, the reports say.

### NATURALIZED CITIZENS

It may come as somewhat of a shock to Americans to learn that while the American law contemplates that a naturalized citizen is equal to a person born in this country, in rights, duties, status and privileges, the laws of some foreign countries, from whence these naturalized citizens originally came, do not so contemplate and that through this difference many naturalized American citizens have suffered great inconvenience and hardship.

For instance, in France the law holds that French-born persons, regardless of naturalization elsewhere, remain subjects of the French republic and are required to do military service. Thus a man might live in the United States for ten years and become a naturalized citizen, return to France for a visit and be detained and forced to do a period of military service.

And this is not supposition. Many of these naturalized citizens have been required to do that very thing, and, furthermore, the United States government is powerless to take any action in these cases.

According to the department of state, this government, while it "objects to the punishment of naturalized American citizens by fines, forced military service or imprisonment for any unperformed military service which accrued after the entry of the naturalized citizen into the United States, it can give no assurance that any objections which it makes will result in a remission or a release, for this country cannot properly protest against punishment for any refraction of foreign law committed prior to the naturalized American's entry into the United States."

Thus it is obvious that naturalized citizens of the United States who come from countries with governments with which the United States has not concluded naturalization treaties, should, before visiting such countries, consider the advisability of inquiring of the appropriate authorities whether they will be immune from molestation in such countries under military service or other laws. Meanwhile steps should be taken to conclude these treaties so that American citizens may enforce the protection of their flag the world over.

### IN THE SWIM

Indications are that before long the English channel will need strict traffic regulations. There will be one-way currents for the swimmers, and slow moving steamboats must keep over to the side. "Stop" and "go" lights at regular intervals will hold up the cross-channel swimmers so that those headed for the ocean and the United States may pass.

We have visions of activities around Gris-Nez. A woman is walking down the street. She meets a friend who says, "Hello! Come have lunch with me?" She replies, "Can you wait a few minutes? I'll be right back. I just started to swim the channel."

Seriously though, what does all this channel swimming mean? Some see it as a mere matter of foolishness. "Why," they ask, "should Gertrude Ederle act so silly and make such a fish out of herself?" The reply to these literal minded people is, "Gertrude may be a fish, but did you ever hear of another fish who had offers approximating several hundred thousand dollars?"

The critics of Mrs. Corson seem to take the stand: "Imagine, a woman with two children out there making a spectacle of herself and trying to get her name in the papers! It's positively ridiculous."

They may be right, and we may be wrong. But we believe that if all mothers took as good care of themselves as Mrs. Corson does, the children might get along a little better.

The real meaning of the channel swim-

ming, however, is that women are approaching a physical equality with men. Posterity need not worry so long as the modern girl idolizes Gertrude Ederle and Mrs. Corson.

### BUSINESS IS GOOD

Prosperous business conditions are indicated by the fact that substantial increases in nearly all federal tax collections are shown for the fiscal year ending June 30, 1926. The total increase from all sources was more than \$251,000,000. One of the most interesting phases of revenue receipts, as shown by their analysis, is that there was greater revenue from the individual income tax, notwithstanding a substantial cut in rates which affected payments in March and June, or the last half of the fiscal year. Every time a cut has been made in rates, there has been an increase in revenue, which goes to substantiate the contention of the government and treasury department that high income tax rates are repressive upon business and tend to drive capital out of productive fields.

What the government is after, of course, is the maximum of revenue at a minimum of disturbance to business. There is nothing to be gained by attempting to penalize business with excessive rates, when to do so immediately causes a shrinkage in revenue derived by the government. Both productive enterprise and the government are injured, without benefit to anyone. That the policy of the administration in dealing with tax revision downward has been sound is fully proved by experience under each successive revision. That it has contributed to the advancement of our national prosperity is not open to question.

### A REAL FOOD

Statistics compiled by men interested in the cheese business indicate that the consumption of cheese in the United States has doubled, and yet our people are eating an average of only 4½ pounds per person of this excellent food.

European nations far outrun us. England uses 9½ pounds of cheese per person per annum, Denmark 13 pounds, France 14 pounds, and healthy Switzerland 23 pounds.

Are we finally becoming a cheese eating nation? The answer is that we should. While cheese should sell upon its own merits and because of its splendid food qualities, the increase in its sales in this country can hardly be attributed to the education of the people. The reason perhaps may be found largely in the daintily wrapped parcels, the little boxes, tins, lead foil or oiled paper envelopes. The wrappings have attracted the shopper's eye and the convenience of the small package, despite the enhanced price, has increased sales. Yet in the European nations for the most part, cheese is still sold in bulk, great cakes being cut up to suit the customers' demands. The conclusion seems to be that European nations eat cheese because the people know that it is good and that we are eating it largely because it is sold to us in attractive form.

Wisconsin is very much interested in the cheese industry. Increasing sales will be reflected primarily with the farmer. It is important that the increase continue not only as it concerns the prosperity of the farming communities but because of the food qualities. When the American people learn to change their desserts from heavy sweets and pastries to a slice of cheese with crackers they will have accomplished the result of assisting one of our finest industries and their stomachs in the bargain.

### TODAY'S POEM

By HAL COCHRAN

Say, man when you think you are down on your luck, and shy on the thing that's referred to as pluck, and stop in your pathway and think you are stuck, you're just giving in to the life you must buck.

The thought that will oft help a fellow come through, is thinkin' of people much worse off than you. They suffer their setbacks and ne'er bat an eye. Run that through your mind—and you're sittin' right high.

No matter how bad you have hit the reverse, remember, of ten, that it might be much worse, comparison's really a mighty good salve. Be thankful, at least, for whatever you have.

There's always the fellow—just take it from me—who thinks you're as lucky as can be. Well, maybe he's right. If his hunch makes you glad, perhaps, after all, things aren't really so bad.

The real fun in life is wishing for things. It peeps you to work for whatever work brings. Don't look on the blue side. That just makes you sore. By just keepin' tryin' ya get that much more.

One fairly reliable sign of winter is the annual announcement of a lumber shortage.

Just a few more weeks before the woman's place will be in the fur coat.

When Thanksgiving comes, we all can be thankful that bill collectors don't carry kuns.

The fellow who thinks life's a joke finds it's on him.

### HEARTBURN AND WATERBRASH

Pyrosis is the medical term for heartburn or waterbrash, a burning sensation in the esophagus or irritation of the throat by sour eruptions from the normal hydrochloric acid of the gastric juice or lactic, butyric or other organic acids produced by excessive fermentation.

This occurs in numerous functional and organic digestive diseases and in many cases without any indication of stomach disease at all. Probably the most common cause is simple excess in eating, eating too much or eating too fast. A prolific factor is the practice of consuming such intense irritants as mustard, pepper, and other powerful rubefacients with food. When you consider how readily the comparatively tough epidermis may be blistered with mustard, it is any wonder that an internal mustard paste should make the gullet smart?

The regurgitation or eruption of the normal contents of the stomach at any stage of digestion would produce waterbrash or heartburn. On the other hand, even an excessively acid gastric juice may produce the condition called hyperchlorhydria, may not produce any of these uncomfortable sensations, but will not in fact, unless some of the acid or sour material finds its way up into the esophagus or gullet or away up to the throat. This acid—reverse peristalsis—may happen from many causes and sometimes from no apparent cause.

Next to the abuse of the irritant condiments, indulgence of alcoholic beverages and tobacco must be mentioned among the causes of heartburn and waterbrash. Only exceptionally is the use of sour or acid fruits in the diet a factor of this trouble; more often certain individuals suffer with heartburn or waterbrash after drinking freely of buttermilk or soured milk products. Ordinarily neither the acid fruits nor the buttermilk products need be avoided by one with "acid stomach."

Some physicians have inveighed against the popularity of bran and other coarse or indigestible items taken as "roughage," but these things seldom if ever actually cause any digestive trouble in persons of ordinary health. Invalids should be guided by the advice of their own physician in using such "roughage."

Simple alkalis give the quickest relief for heartburn or waterbrash. A teaspoonful or less of saleratus (sodium bicarbonate, baking soda) may be taken at once, or a teaspoonful or two of milk of magnesia, or half a teaspoonful of aromatic spirits of ammonia in a half teacupful of water, or half a teaspoonful of the heavy carbonate of magnesium, or a tablespoonful or two of lime water.

The repeated or habitual use of any of these alkalis is not so harmful as it is futile. The wise course for one who suffers from pyrosis or from "acid stomach" is to correct the faulty habit which is causing the trouble, or seek proper medical treatment for the underlying disease, if any.

### QUESTIONS AND ANSWERS

Trying for Endurance Record

I have been taking adjustments from a chiropractor for seven months and the cords of my neck and back are pulling upon my brain and my nerves are getting bad. What would you suggest I should do? (C. G.)

Answer.—The case reminds me of the grasshopper. He laid his neck on the railroad track, placed his head right over the track, left his head right there on the track, till a train came along. Then he jerked it back.

## LOOKING BACKWARD

### TWENTY-FIVE YEARS AGO

Saturday, Oct. 5, 1901

The institution of a new lodge of the order of Knights of Columbus was to take place the following Sunday afternoon. The charter conferred by the Milwaukee lodge; the second by the Duluth lodge and the third by the St. Paul lodge. Those who were to take part in the program were Frank J. Sensesbrenner of Neenah, the Rev. W. J. Fitzmaurice, Judge G. T. Moeskes, James Lennon of Milwaukee, Judge Paul D. Carpenter of Milwaukee, John M. Callahan of Neenah, the Rev. Father Ward of Beloit, Gustave Keller, John Tooney of Milwaukee, D. W. Dwyer of West Superior, John J. Phelan of Chicago, John J. Sherman and John R. Brown of Rockford, Ill.

The marriage of Miss Anna McNally of this city and Peter Gravin of Menasha was to take place the following Tuesday at St. Mary church.

Miss Amelia Lohman entertained a company of young people the previous evening.

Miss Theresa Dean, well known writer, had recently returned from the Philippines and arrived in Appleton that day where she was to spend several weeks visiting her mother, Mrs. Patten on Harris-st.

### TEN YEARS AGO

Saturday, Sept. 30, 1916

Mr. and Mrs. C. Schmitzkewitz, 1111 Packard-st., celebrated their twenty-fifth wedding anniversary with two parties at their home the previous day. In the afternoon, Mrs. Schmitzkewitz entertained the St. Paul Ladies society at an informal party and in the evening friends of the couple surprised them. Prizes at schafkopf were won by Mrs. L. Meyer of Kaukauna and Ralph Schmitzkewitz; cinch, Mrs. W. W. Root and Mrs. J. Nicholas; pit, Miss Alma Nickash.

Miss Fern Wettrow entertained a group of friends the previous night in honor of Miss Blanche Roudesh who was to leave the following Saturday for London, England.

The complete staff of the Clarion, Appleton high school publication, was announced the previous night. Ruth Ryan was editor of the paper; Letha Dambusch, associate editor; Theodora Guckstein, chairman of school news; Janet Smith, Harold Jensen and Gerhard Kubitz; Exchange, Agnes Keller, chairman, Gladys Mathes; Literary, Lillian Schlafke, chairman, Alfred Root, Helen Mills, Eleanor Halls and Leo Merkel; comic capers, Fred Nelson, chairman, Norma Perry, Louis Kollitsch, Florence Miller, Arlene Edmonds; athletics, Victor Bloomer; staff artists, Dorothea Nehls, chairman, Elizabeth Winsey; business manager, Lester Abbey; associate business managers, Fred Nelson, Samuel Bangey and Durward Bendt; faculty director, Miss Constance Johnson.

Always be careful about electing a politician who has strings tied to him. He has his drawbacks.

Twenty years ago today those who criticize our young people now were young people being criticized.

## DRAMA WORK TO BE RESUMED AT TRADE SCHOOL

Dramatic work with a group of girls from the Appleton vocational school will be started at 7:30 Monday evening with Miss Elinor Strickland, recreation director of the Appleton Womans club at the playhouse. Miss Martha Chandler, recreation secretary at the club last year, worked on several plays with vocational school girls, and this work will be continued this year, it was said.

A club will be organized, Miss Strickland said, and it is hoped that the girls will make their own costumes and stage properties. Registration in the group was made last week when Miss Strickland and Miss Agnes Vanneman, physical director, visited the school and asked all girls who were interested in dramatic work to enroll in the organization. About 15 girls registered.

## NO REPORT ON PROGRESS OF MEMBER DRIVE

Final results of the recreation membership drive of the Appleton Womans club this week were not announced at the meeting of solicitors Friday evening because all of the girls working to secure memberships did not report. Ten of the solicitors attended the supper and meeting. The prize to be awarded to the girl returning the greatest number of new members of the club will be given after the final returns are made, it was said.

Miss Elinor Strickland, recreation director, and Miss Agnes Vanneman, physical director, presided at the meeting.

The campaign was formally opened Monday evening when a meeting of all the workers was held to give instructions concerning the campaign and to give membership cards to the solicitors. Girls were chosen to represent stores, industries and offices in Appleton, and they were asked to secure memberships from other girls employed in the same industry.

## COMMITTEE IS APPOINTED TO PLAN PROGRAMS

A committee of three consisting of R. Duffner, Mr. Beach and J. A. Merkel, was appointed at the regular meeting of the Appleton Womans club Friday evening in Odd Fellow hall to take charge of all social meetings of the organization during the ensuing year.

Arrangements were made for an open schafkopf and dice party to be held Friday, Oct. 15 in Odd Fellow hall. Prizes will be given and refreshments served, it was announced.

## STATE'S SCHOOL HEADS DISCUSS TEACHERS' WORK

Rohan Returns from Meeting of Superintendents in Madison

Teacher's Training was the chief problem discussed at the annual conference of city superintendents called by John Callahan, state superintendent of schools, at the state capitol in Madison on Thursday and Friday. Ben J. Rohan, Appleton superintendent, who attended the conference stated. About 200 superintendents were at the meetings.

The point of view of the normal school toward teacher's training was given by H. A. Brown of the state normal school in Oshkosh. The university's point of view was discussed by W. L. Chil of the University of Wisconsin, and the city superintendent's point of view by F. O. Holt, chairman of the committee on normal school relations, and by O. H. Plenzke, chairman of the committee on university relations.

Other topics of addresses were: The School Tax Situation in Wisconsin, by the state superintendent; The Aims of the Wisconsin Association for the Disabled, by Miss Elizabeth Xerxa of the state board of control; Curriculum Construction by the Teacher and Principal, by Henry Kircher, superintendent of schools at Sheboygan; State Progress of Supervision for the High School, by T. J. Giles, state high school inspector.

Reports were given by the committees on better teaching, teachers training in Wisconsin colleges, problems presented by the sub-normal child, and junior high school credits and university entrance requirements. A discussion of the Wisconsin Teachers association was led by E. G. Douding, secretary of the association. C. F. Hedges, superintendent of schools at Neenah, talked on "Days' "Weeks" "Essays" "Posters," and other projects which are sponsored by organizations throughout the country in order to foster special events. The general opinion at the conference was that the aims of these special drives were constantly being stressed in the schools by the teachers without the campaigns.

## HALF DOLLARS WORTH OF ALKY SENDS MAN TO JAIL

A half dollar converted into denatured alcohol resulted in a man giving his name as William J. Browne, address unknown, spending a night as guest of the city Friday. Browne was picked up by an officer at the junction with three bottles of a cloudy liquid concoction in his possession which he apparently intended to take internally. Saturday morning he told the police that one swallow had made a summer's jag as far as he was concerned and that he would leave the city at once if allowed to depart. As the man had created no disturbance and had not had sufficient time to test the full potency of his "liquor" he was allowed to start for parts south of Appleton.

## FLORIDA RELIEF FUND INCREASED TO \$327

Contributions since Friday morning have increased the Florida Relief fund being raised here to \$327. It was reported Saturday morning at the chamber of commerce offices. But three days remain before the close of the campaign, during which time it is hoped to raise \$500. No money will be accepted after next Wednesday.

The campaign, which was started several days ago, is being sponsored by the community welfare committee of the chamber of commerce. At the end of the campaign all money raised will be turned over to the local chapter of the Red Cross for distribution in Florida.

A letter thanking the chamber of commerce for the work it was doing in securing funds to finance relief in that state was received Saturday from J. W. Tidball, mayor, Fort Lauderdale, Fla.

## THIS WOMAN'S BATTLE Wins Against Ill Health

"At times I was hardly able to do my housework," writes Mrs. Mary Wallace, who writes from 1547 Safford Ave., Columbus, Ohio. How many women have found themselves in this same condition! How many women have fought bravely on, day after day, cooking, washing, ironing, doing the dishes, and keeping the house clean, when they were in a weakened condition and had not sufficient strength to perform these duties.

A friend advised her to take Lydia E. Pinkham's Vegetable Compound and she gave it a fair trial. "I just can't give enough thanks to it," she writes. "Now I can eat anything at all and I am feeling better than I have for years. I shall never be without your medicine again."

A woman who is fighting for her health and her family's happiness is a valiant soldier. She wages her battle in her own kitchen. She has no thrilling bugles to cheer her on, no waving banners.

Many other women tell us, as Mrs. Wallace did that Lydia E. Pinkham's Vegetable Compound has restored their health.

## FEW TOMATOES LEFT ON MARKET

Home Grown Stock Almost Exhausted, Local Dealers Say

A scarcity of tomatoes has caused the price to rise during the last week on the Appleton market. Home grown stock is nearly exhausted and the price is now from 10 to 20 cents a pound. Red cabbage is selling at from 5 to 7 cents apound and green cabbage at from 3 to 4 cents per pound.

Cucumbers retail at from 5 to 10 cents each and carrots at about 49 cents a peck. Squash sells at from 3 to 4 cents a pound and red and green peppers at from 4 to 7 cents apiece. Cauliflower retails at from 20 to 30 cents a head and parsley at 10 cents a bunch. Beets sell at 8 cents a bunch and 5 cents a pound. Leaf lettuce retails at 8 cents a pound and head lettuce from 10 to 25 cents. Turnips sell at 5 cents a pound and celery at 10 to 25 cents per bunch. Spinach retails at from 15 to 20 cents a pound. Potatoes are selling at from \$1.25 to \$1.60 cents per bushel.

**Lands Contract to Build 2 1/2 Miles of Concrete in Pennsylvania**

Kaukauna—The McCarty Construction Co., has received another large contract for work in Pennsylvania according to a statement made by Joseph McCarty. The contract amounts to \$22,000. It provides for building two and a half miles of concrete highway in the town of Shippensburg, Pa. The highway, which is a state trunk road, will be sixteen feet wide. This is the fourth year that the Kaukauna concern has had a crew working in Pennsylvania. It has just finished building a concrete highway in Mercer borough and Mercer co., and the company received the new contract on the same day that the last bit of work was done on the old job, enabling it to keep the same crew for the new job. The company finished its work in Mercer, Mich., early in August.

Mr. McCarty said the new concrete bridge would be ready for use within fourteen days. The bridge proper has been completed with the exception of the rails. Mr. McCarty said the work has been delayed because of the bad weather.

**REDUCE CAR SERVICE ON GREEN BAY LINE**

Kaukauna—George Biebel, superintendent of the railway department of the Wisconsin Public Service company, has announced that plans for reducing the number of interurbans running between Kaukauna and Green Bay have been completed. Cars will leave Green Bay every three hours starting at 6:30 in the morning. The other trips from Green Bay will be 9:30, 12:30, 3:30 and 6:30 in the evening. The first car will leave Kaukauna for Green Bay at 7:45 in the morning with trips at 10:45, 1:45, 4:45 and 7:45. At present interurbans leave to and from Green Bay every hour starting at 6:30 in the morning and continuing through the day until the last trip is made at 10:45 in the evening.

Mr. Biebel said the reason for reducing the number of cars on the line is that business is falling off and that the company has been maintaining the line at a great loss. Bus lines have cut into the traction company's patronage and many people drive their own cars between Kaukauna and Green Bay.

**ZWICK WINS TWENTIETH FIGHT WITH KNOCKOUT**

Kaukauna—Phil Zwick, local bantamweight, won his twentieth bout since leaving Kaukauna a year ago when he knocked out George Knowles in the second round of a scheduled eight round fight at Cleveland, O. **RED AND WHITE ELEVEN DOWNS MANAWA, 18-7**

New London Tucks Game Away in Second Half With Two Touchdowns

New London—Encouraged by its overwhelming victory last Saturday over Clintonville, New London's high school defeated Manawa on the latter's field Friday afternoon 18 to 7. The game was played on a soft, sandy field which added to the odds of playing in foreign territory. At 3:45 p. m. Manawa kicked off to New London. The local red and white squad advanced to the three yard line, then lost the ball. New London scored in the second quarter on line plays and as the first half ended they held the ball two inches from the goal. The local lead, 6 to 0 at half time. In the second half the local eleven started on offense that was hard to stop. Selms scored a touchdown on an end run in the third quarter. Manawa on a fake play, returned a kick-off for a touchdown. The local fighters came right back and secured a second touchdown on straight foot-ball thus ending the battle with a final score of 18 to 7. New London played a good game in all departments while Manawa was helpless before the vicious attacks of the red and white. The next game will be played at Menasha, Oct. 3.

**"DIXIE MERCHANT"**  
APPEALING STORY OF SUNNY SOUTH

"The Dixie Merchant" the Fox Film production featuring J. Farrell MacDonald which comes to the New Bijou Theatre for a three day run beginning Monday is one of the most appealing stories of the South that has ever been filmed. It tells the story of Jean Paul Phipps, a philosophical, absentminded, but well meaning old fellow whose life is wrapped up in his horse "Marsellaise"—he mortgages his home to purchase the mare, and then fails to meet the payments on the interest because he has had to buy so many things for the horse's comfort. He is brought to a sad realization of his short comings when he comes home to find his wife and daughter gone. The way in which he tries to make amends is filled with pathos—and the ending of the story entirely satisfactory as well as unexpected.

Madge Bellamy and Jack Mulhall are cast in the other two featured roles. They are supported by an all-star cast which includes Frank Beal, Edward Martindale, Claire McDowell, Harvey Clark, Evelyn Arlen. Frank Borzage directed the production.

First," the attraction at the Elite Theatre today and Sunday. Lloyd Hughes and Dolores del Rio head the acting contingent in this picture. Miss del Rio is the beautiful Mexican heiress whose sudden rise to screen stardom is one of the nine wonders of Hollywood. Others included in the cast are Alec Francis, George Cooper, Edward Earle, Hamilton Morse, George Reed, Alice Nichols and Alice Belcher. The story of "Pals First" is adapted from the immensely successful novel by Leo Wilson Dodd. It is also known to a large public in its play form. Three tramps, masquerading as millionaires, carry off the male honours in "Pals First." The situation is unusually interesting. "DOUGHS NEW TREAT" Douglas Fairbanks is against the cinema pioneer. In this instance he is exploring the realm of color photography, and it is said that "The Black Pirate," the screen production he has now releasing is easily another outstanding novelty. It was made after five months of preliminary scientific research. In addition to its actual color, it glows with the color of romance and adventure, of heaving ships and rolling seas, pieces-of-eight and plashing pirates. It will quicken the pulse of everyone who has read and dreamed of the days of piracy. The Technicolor process by which this film is being made stands as another triumph for American ingenuity. "The Black Pirate" comes to the Elite theatre Monday for a 5 day engagement.

## LOCAL COMPANY SPECIALIZES IN RUBBER STAMPS

Product May Be Obtained Here in All Sizes and Shapes at Reasonable Cost

Rubber stamps of all sizes and shapes and for all purposes can be obtained at moderate cost from the Harriman Stamp company, 118 S. Appleton-st. This business, which has been in operation in Appleton for the past year and a half, is growing daily and orders are being received from cities throughout the middle west.

F. J. Harriman, manager, returned recently from a seven weeks' visit in Chicago where he made an extensive study of methods and processes used by the stamp companies of that city. He is well equipped with a knowledge of rubber stamps that puts the Harriman Company on a footing with other similar businesses in cities much larger than Appleton.

The work done by this company has met with such great favor that the name Harriman is becoming widely known in connection with rubber stamps. Specialization of building stamps for banks, mercantile houses, manufacturers, retailers, professional men, teachers and students is the cause for the increasing business done by this company.

Business men who must sign letters or circulars, sometimes many hundred in one day, may save much time and labor by purchasing a stamp that will make an imprint of their signature. This type of stamp is but one of the many hundred which may be obtained.

Samples of several hundred different stamps are kept on hand for the convenience of the purchaser, who can select just what he may want. Special designs, made either by the customer or the company, can be manufactured as readily as the types that are contained in the sample list.

Rush orders can be filled in one day for the man or woman who wants a special stamp and needs it for some special occasion. Secretaries of lodges and fraternal organizations can save much time and labor by looking over the sample line and having stamps that will do a part of the routine work of their offices.

## LUMBER ORDERS AGAIN EXCEED PRODUCTION

Demand for lumber showed great activity in the last week for which reports are available, that Sept. 18. Orders received by 438 of the principal softwood mills of the country exceeded their production by seven percent, while shipments were four percent in excess of production. City building permits for August reached a very large total, and lumber sales in the large centers are therefore holding up remarkably well. There is also a good movement to country points, though it is hampered by rain and floods in many sections, and this is increasing as farmers complete their field work and turn their attention to building. Prospects for the fall are encouraging, says the American Lumberman, Chicago, which points out that 222 mills having a standard for normal production are cutting one percent more.

The 197 reporting West Coast firms received orders for five percent more than their output, and this was the third consecutive week in which bookings exceeded output. California is buying much more freely, and there is also a large volume of cargo shipments to the Atlantic coast. Export trade has been expanding from week to week. Rail trade continues active, and a large fall demand from the middle West is counted on.

Bookings of 122 southern pine mills were 10.43 percent ahead of their production. It is noted that while average unfilled orders on Aug. 31 of last year were 1,125 thousand feet per mill, against unsold stocks of 9,816 thousand feet, the unfilled orders on Aug. 31, this year increased to 1,133 thousand feet, against unsold stocks of only 2,917 thousand feet per mill.

Total orders for both northern and southern hardwoods during the week exceeded the mill output by fifteen percent. Production at the northern mills has been tapering off, as it normally does at this season, and current business is bringing about a considerable reduction in stocks. Sales of southern hardwood were seven percent ahead of production. The mills in the South are active, but average unsold stocks per mill on Sept. 1, were twelve percent less than on the corresponding date last year, and ordinarily these mills are forced to curtail production heavily during the rainy winter season.

Prices of the softwoods are firm, and scattered advances have been noted, while hardwoods are displaying increased strength.

## FOOD WINS VOTES

Honolulu — Hawaiian natives are looking forward to the coming fall elections and to the "luau" that will precede them. A luau is a native feast, where conversation is thrown aside and orators orate to the guests at all. All the political parties rely upon these methods to get over their campaigns. The stunged music and hula dancing at luau prove to be successful vote getters.

## Reduce Indebtedness Now, Financial Expert Advises

Babson Park, Mass. — Roger W. Babson discussed Friday the money situation. He thinks that the present rates will continue for some time, but, on account thereof, he gives some very timely advice. His complete statement is as follows:

### DON'T BORROW NOW

"The present is a very good time to reduce loans. This is always a good step to take when in a period of prosperity as loans can be reduced with much more ease during such a period than they can when money is tight. As in other things, there is a time when it is easy to reduce indebtedness and a time when it is hard to reduce indebtedness. The present is the time to get out of debt.

"We are now passing through a period when it is easy to borrow money and the banks are anxious to loan. The temptation, therefore, is to expand and borrow more money than is needed. Conditions cannot always last when interest rates stiffen it when it is hardest to pay up the old loans. Now, therefore, is the time to stop borrowing money and get all loans paid up. Keep in mind that the time to reduce indebtedness is when it is easy to borrow and the time to increase indebtedness is when it is hard to borrow.

### AVOID ENDORSING NOTES

"Just how can we reduce indebtedness? The first thing to do is to get off all personal endorsements. If I could get all of my young friends to promise me that they would NEVER endorse a note, this would be one of the greatest things that I could possibly do for these young people. One will never get anywhere by endorsing notes and it is certainly taking a needless chance.

We know that money will not always come easy and notes must be paid up when due. Therefore, one good way of keeping out of trouble is to pay up all our personal notes and determine never to endorse another. It is always easy to find some excuse so you can avoid endorsing a note. Therefore, unless you want to take the chance of being a heavy loser in the future you should get off all personal endorsements now while money is easy and when it will cause the least embarrassment to the maker of the note. Hesitation now may mean destruction later. About once in ten years there comes a chance to get off endorsements without hurting the other fellow. As this is the gentlemanly way of getting off of them you should take the present opportunity for doing so.

### COLLECT ALL POSSIBLE

"The second thing to do is to get all that is owed to you, whether it is large sums or small sums. The present is a fine time to collect old debts, for money is now as easy all round as it will be for some time to come. Payment of a note will now bring joy to both the man to whom it is owed and to the man who owes because it eliminates further financial obligations on the same. If, however, you leave the collection of it until you need the money, it will then be hard to collect and be both difficult and disagreeable. The third thing to do is to reduce and most satisfactory method of reducing personal indebtedness is to pay it up. If, however, you cannot do this by changing indebtedness from a personal note to a corporate note, then you are in a bad position. If you do business through a corporation and the corporation gets into trouble you lose only what you had in the corporation, but if you are in business personally, for yourself, and get into trouble you are apt to lose all you have.

### GET INCORPORATED

"Twenty-five years ago it was the unpopular thing to incorporate your business. Banks then thought that a man doing this was necessarily having trouble in his business affairs. Now there is no such stigma attached to incorporating. Today it is quite the popular thing to do and many small firms have done so.

The point is that the banks are far more willing now to release a personal endorser than they will be in the next period of depression comes. But we should remember that it is well to reduce corporate liabilities also and thus keep our business firms out of trouble. "In making these statements I am not necessarily holding out warnings or speaking from a pessimistic point of view, but I am speaking as a business statistician. My view of these things has been taken from my many years of study of the subject and I feel quite strongly that all my statements will be found to be correct. This is a hard time when it comes to the borrowing of money. In a financial panic one person is about as considerate of another as he would be on a sinking ship.

### INCREASE YOUR TURNOVER

"In reducing one's corporate liabilities it should be remembered that there are several methods of so doing. These methods are as follows:

- (1) By getting in bills receivable and accounts receivable.
- (2) By selling new capital and reducing interest bearing obligations.
- (3) By reducing inventory. It is surprising what every manufacturing concern could do in the way of getting rid of idle property.
- (4) By increasing turnover and making more use of capital do more work. This can be done by cutting down money into the sale of one's goods. The number of turnovers each year differs, of course, in different

## FRIENDLY TOUCH IS NEEDED WHEN WRITING LETTERS

Public Stenographer at Hotel Appleton Prepares Circulars, Letters

The personal and friendly touch in business letters, circulars and advertising material brings more business, according to Miss Laura A. Fisher, public stenographer, whose offices are in Hotel Appleton. The time and expense of getting the personal touch in advertising circulars and letters is usually too great to be used intensively by Appleton merchants. Miss Fisher has had much experience in writing and preparing such letters, and has the materials needed for preparing the letters in a neat and satisfactory manner. Multigraphing, a part of this service, enables her to prepare from 1 to 5,000 letters and addresses and mail them at a minimum cost to the merchant, perhaps even lower than he could have done the work in his own store.

Two typesetting machines are a part of her office equipment and they can be used for giving quicker and better service. Any type of business letter can be prepared, addressed, folded, inserted in the letter and mailed without any trouble to the businessman. Miss Fisher has maintained offices at the Hotel Appleton since 1922 and increased patronage and favor is a proof of the efficient and satisfactory service given to the many Appleton business men who make use of her experience and office equipment.

In addition to doing circular work for stores and offices, much work is done for secretaries of fraternal organizations. These men are usually too busy with their own private affairs to be able to spend the time preparing, folding, addressing and sending the great number of necessary and routine letters to members. This work is reasonably priced and completed thoroughly and efficiently.

## RADIO ADVERTISING AT \$35 TO \$400 AN HOUR

Chicago — (AP) — The landscape-loving motorist whose view of wooded dells is obscured by billboards may find a fellow sufferer in the radio fan beset by radio advertising whenever he turns the dials of his receiving set. For this thoreal salesmanship, "broadcasting stations" quote rates of \$35 to \$400 an hour. The Chicago stations which sell time began to charge a rate of \$4 a minute. Wide variations from this charge have been made, however, in consideration of numerous factors. The time of a program affects the cost. The hours from 6 to 10 p. m. command the highest advertising rate, and morning hours the lowest. One Chicago station gets from \$35 to \$50 an hour for time during the day, and its rates ascend to \$150 at night.

Rates are lower in summer, because of lessened range and fewer listeners, than in winter. A big user of radio time gets a lower rate than the occasional advertiser. The nature of the advertising affects the rate. Political advertising commands a high premium, as do advertising contests. A Chicago manufacturer, desiring to have owners of receiving sets choose a slogan for his company, paid \$1,200 for an evening on the air. The \$400-an-hour rate includes the cost of hiring talent, which is done by the station.

## RAILROAD PROPERTIES ORDERED TO BE SOLD

Chicago — Following five months of legal battles between majority and minority bondholders, the properties of the Chicago, Milwaukee & St. Paul railroad have been ordered sold at auction Nov. 22 at Butte, Mont., by Federal Judge James H. Wilkerson.

A minimum sale price of \$122,500,000 and transfer of \$154,481,500 outstanding bonds of the Puget Sound road, which are pledged under mortgage, were ordered.

A petition from the minority group of bondholders asking an upset or minimum price of \$250,000,000 and a stay of the date of sale to permit legislation by congress on payments of government loans was denied.

Judge Wilkerson declared that many of the minority group had bought their bonds at prices of 50 cents on the dollar and that the sale price set by him would assure them a profit nearly 50 per cent.

The road was thrown into bankruptcy in March, 1925.

# FOUR CITIES MAY APPEAL ASSESSMENT TO COURT

## 4 CITIES SEND DELEGATES TO DISCUSS TAX

### Question Whether Courts Can Help Cities Escape New Burden

At least four municipalities will carry an appeal from the revaluation of Outagamie-co by the Wisconsin Tax commission to the circuit court if their attorneys advise such action. It was agreed Friday night at a meeting of representatives of these localities at the city hall.

The meeting, called by Mayor Albert C. Rule to protest the revaluation was attended by representatives of Kaukauna, Kimberly, Little Chute and Appleton.

Kaukauna was represented by Mayor W. C. Sullivan, Supervisor John Nison, and Aldermen George Phillips, Frank Gerrits, Peter Hoolihan and Fred Wigger.

Joseph Doerfler, village president, and Fred Kroehne, village treasurer, represented Kimberly. Little Chute's representatives were Anton Jansen, village president, M. O. Hoff, village clerk, and Stephen Sanders and John Helf, trustees.

Mayor Rule and George Peotter, city assessor, represented Appleton. Alfred C. Bosser, city attorney, also was present.

Copies of the report of Pierce Tomkins, representative of the tax commission who conducted the revaluation work in the county, will be prepared for presentation to the attorneys of the municipalities concerned, and another meeting at which the attorneys will prepare their recommendation will be called in the near future, probably on Monday, Oct. 11. Whether an appeal will be taken to the courts or the revaluation accepted will be definitely decided at that time.

All four municipalities represented at the meeting were unanimous in their disapproval of the tax commission's revaluation. Immediate action would be favored, but more information on the legal aspects of the case were desired before any definite steps are taken.

The present law regarding the valuation of counties will have to be changed if the results desired through an appeal are to be realized, it was brought out. As the law now stands, the county would only proceed in a circle and finally to return to where it started if court action was instituted against the tax commission, it is believed.

If the circuit court should decide in favor of the county and throw out the figures of the tax commission, the commission would have to conduct another revaluation here at the county's expense and this is what the county is attempting to prevent, according to Mayor Rule.

The law must be changed so that after the court has acted, final revaluation will be done by a body other than the tax commission, he stated at the meeting.

The decision to carry out the appeal will of course have to be made by the city councils or village boards, as the case may be.

The matter probably will occupy a large part of the Kaukauna council meeting next Tuesday night, it is expected. Mayor Rule accepted the invitation of Mayor Sullivan of Kaukauna to attend the meeting at the latter city and present the matter to that body. Although the village board of Little Chute is to meet the same evening, it is probable that the meeting will be cut short and members of the board attend the council meeting.

## STUDY STUDENT COLLEGE NEEDS

### Senior Home Room Classes Discuss Knowledge About Universities

What the High School Student Needs to Know about Colleges and Universities was the subject of a discussion in the senior home room classes at Appleton high school Thursday afternoon. Guidance work of this kind on topics pertaining to high school students will be included on the program for the Thursday home room period each week in all classes.

A pamphlet had been prepared for teachers' use on colleges which stated the topics to be considered under the general heading, Admission requirements, entrance blanks, catalogues and bulletins of the different institutions, the types of colleges and universities, recommendations necessary to enter, scholastic requirements, special fields the schools in Wisconsin and nearby states are especially qualified to teach were some of the subjects discussed. Normal schools, nurses institutions and training schools for teachers were included in the discussions.

Teachers in charge of the senior home rooms who led in the guidance discussions Thursday were: Miss Ruth Saeker, Miss Dora Kelley, Miss Edna Benson, Miss Ethel Carter, Miss Ruth Melke, and Leland DeForge.

## SHORT TERM SCHOOLS START NEXT MONDAY

Monday will see another "first day of school," when several 8-months rural schools will open for the year's work. It is expected that by the third week of this month every educational plant in the county will be operating. It was stated. Efforts are being made more and more each year to eliminate the shorter term schools and standardize the county into the 9-months class, records reveal.

## DRIVERS TAKE RISKS IF THEY LEAVE CONCRETE

Concrete roads are good. County laterals are fair and dirt roads are in the "use your own judgment" class. It was reported at the county highway commission office Saturday morning for the information of parties contemplating weekend automobile jaunts. Roads are drying out fast, reports indicate, but traveling off the main highway routes will be done very much at the motorist's individual risk of unpleasant going, it was indicated.

## SOUSA'S BAND WILL GIVE TWO CONCERTS HERE

### Famous Musician Will Present Matinee Especially for Children

Two concerts will be given by John Philip Sousa and his band at Lawrence Memorial chapel on Thursday, Oct. 14. A matinee has been planned especially for school children, although the program will appeal to older people as well, it was said.

Sousa's popularity among the young people of the country has been shown by the enthusiasm greeting his matinee performances everywhere and by the number of his university, college and high school engagements. Eighteen colleges and universities and eight high schools are included this

year in the bandmaster's itinerary. Among them are appearances scheduled at Harvard university at Cambridge, Mass., and Yale university at New Haven, Conn.

The thirty-fourth annual tour of this famous band will have a program containing twice as many numbers as those of other years. Lieut. Comin. Sousa has each season cut down the length of his programmed numbers with the result that he can give more selections in the same period of time. It is through this that he has been able to keep up the enthusiasm and interest of his audiences.

Three new marches will be played by the Sousa band men this year: Sesquicentennial, the official march of the exposition; Gridiron Club, dedicated to the famous Washington newspaper organization; and Pride of the Wolverines, dedicated to the city of Detroit. Because of the insistent demand, almost all of the encores this season will be the most popular of the marches of other years. In this list will be The Stars and Stripes Forever, Semper Paratus, Manhattan Beach, El Capitán, United States Field Artillery, and others.

Sousa's band will be the first number of the Community Artist series for the season 1926 and 1927.

## COACHES VOTE DEBATE SUBJECTS

### High School Mentors Suggest Topics for School Debate Teams

Debate questions to be used by the Fox River Valley district association were voted on by the high school debate coaches and principals this week, and the announcement of the subject receiving the highest number of votes will be made within a few days by O. F. Nixon, principal of the East Green Bay high school and president of the association.

Coaches of the eight schools in the district submitted two questions and these were compiled and the complete list sent to the coaches for final selection. Adam Althelson, Appleton coach, submitted the questions: Resolved, that the Philippine Islands be given their independence; and Resolved, that the Volstead act be repealed or modified. Both of these subjects are

of particular interest just now, and to Wisconsin people the latter is of special interest just now, and to Wisconsin people the latter is of special interest because they will be asked to vote on it in a referendum in the November elections.

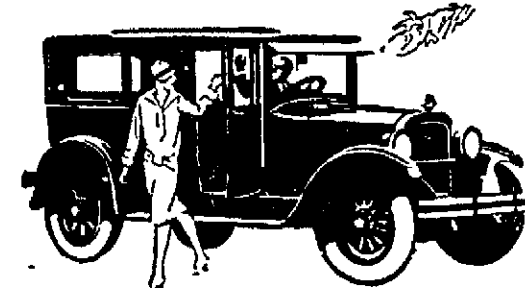

Tryouts for the debate squads will

be held about the middle of October. Scholastic requirements for debaters are the same as for athletic teams, it was said.

Dedicate Church  
The Rev. H. A. Bernhardt of Emmanuel Evangelical church left on

Saturday afternoon for Phillipsburg, Wis., to officiate at the dedication of the Wayside Union church on Sunday. The Rev. H. H. Brockhaus will preach at the local Evangelical church on Sunday morning and the Rev. C. F. Rabehl on Sunday Evening.

## Better than Ever-

Following their traditional policy of constant improvement with no yearly models, Dodge Brothers, during the past eight months, have vastly bettered their motor cars in many vital respects.

Indeed, there has never been an equal period in Dodge Brothers history when so many refinements of a popular and fundamental nature have been made.

The public is registering its appreciation of this progressive industrial service by purchasing every motor car Dodge Brothers can build—in spite of the fact that Dodge Brothers production, during these months, has broken all previous records by an impressive margin.

INJUNCTION IS  
DENIED BUS FIRM

American Coach Lines Must  
Purchase Licenses to Op-  
erate in City

Neenah—The application of the American Coach Lines for an injunction to restrain Neenah from interfering with the operation of busses in this city by collecting licenses was denied Saturday morning in United States district court, Milwaukee, according to work received here this noon.

The bus company has been operating busses through this city between Milwaukee and Green Bay without having taken out the licenses required on each vehicle. Although the company promised to pay the fees several times, it failed to do so, it was reported by city officials, and the arrest of drivers followed.

The company then sought an injunction to prevent the city from interfering with bus operation there.

The city will now compel the American Coach Lines to purchase licenses for each bus operating through the city. Failure to do so will again result in arrests of the drivers, it was stated by city officials.

## HARWOOD WILL DELIVER TALK AT CONFERENCE

Moderator Will Discuss Christian Citizenship at Annual Meeting

F. J. Harwood of Appleton, moderator of the National Council of Congregational churches, will discuss Christian Citizenship at the eighty-eighth annual meeting of the Wisconsin Congregational conference from Monday to Thursday, Oct. 4 to 7, at Sparta. Mr. Harwood, Dr. H. E. Penabody pastor of the local Congregational church, Mrs. Penabody and Dr. and Mrs. J. W. Wilson also will attend.

Mr. Harwood headed a delegation last April representing the National Congregational Council at the prohibition hearing conducted by the United States senate at Washington, D. C. A membership gain of 746 is reported for the past year in the annual reports of 230 churches. The total number of new members received by the churches last year was 3,519 and the present total membership is 35,263. The total Sunday school enrollment is reported at 27,551 and the membership of young people's societies at 4,012. The total contributions of the churches last year were \$1,018,682, a gain of \$215,359 over the preceding year. For local expenses the contributions were \$902,318 and for missions and other benevolences \$125,264.

The property of the churches is valued at \$4,949,556, an increase of \$283,430 for the year. Invested funds of churches amount to \$104,566. Sixteen legacies, totaling \$71,750 were received by churches.

The average pastoral salary is \$2,350. In addition to salary most of the churches supply a parsonage.

### DENOMINATION GROWS

Comparison of the statistics for last year with those a decade ago show that the Congregational denomination has been having a large and continuous growth in the state. The membership growth during the ten year period has been 4,363. The total annual contributions have increased \$567,153, the amount given ten years ago being \$461,929. The increase in the value of the property of the churches has been \$2,474,426. The average pastoral salary has been raised from \$975 to \$2,050.

The Rev. Cornelius J. Patton, D. D. of Boston, for twenty-five years home secretary of the American of Commissioners for Foreign Missions (Congregational), will address the conference Tuesday night and Wednesday morning. Rev. Harry S. Martin of Tungkien, Ngli China, will speak Tuesday afternoon. Mr. Martin has been a missionary in China sixteen years. He is a graduate of Carleton College and Yale University.

Mrs. Lucius O. Lee of Chicago, secretary of the Congregational woman's foreign mission board of the central states will speak Tuesday afternoon on "Present Nationalistic Movements and Missions."

The conference sermon at the opening session Monday night will be given by Rev. Roscoe Graham of Plymouth church, Milwaukee. Other speakers on the program will include Dean Thomas W. Graham of the Oberlin (Ohio) Graduate School of Theology; Rev. Albert W. Palmer of First Congregational church, Oak Park, Ill.; Dr. Arthur E. Holt, professor of social ethics, Chicago Theological Seminary; Rev. P. W. Gammon, D. D., of Chicago, district secretary for the national Congregational Education Society.

### DR. FAYVILLE IS SUPT.

S. M. Pedrick of Ripon is moderator of the conference and the Rev. Theodore R. Fayville, D. D., of Madison, is superintendent. Dr. Fayville is a graduate of Beloit College, Yale University and Union Theological Seminary, New York City. He taught three years in Robert College, Constantinople, Turkey.

## CAN'T END FALL FARM WORK, FEAR

### Thursday Night Storm Was Final Straw Added to Farmers' Burdens

Grave danger now exists that farm work has been delayed so long that

mission board will consist of the American board of commissioners for foreign missions with which will be merged three women's societies organized in the eastern central and the Pacific states. The American board was founded in 1810 and is the oldest foreign missionary society in the United States.

"The Congregational foreign missionaries number almost 800, and are assisted by nearly 6,000 trained native helpers. The foreign mission churches and preaching stations number 3,000 and have 300,000 members and adherents.

Over 1,200 foreign mission schools and colleges with more than 50,000 pupils are conducted by the Congregational churches. Seventy-five hospitals and dispensaries with fifty physicians and surgeons are maintained. A half million patients are treated each year. In addition there are model farms, industrial schools and publishing plants. The whole Congregational foreign mission work comprises a great business for carrying Christian ideals and the Christian way of life into the hearts of millions."

"The merger," according to Rev. Frederick L. Fagley, D. D., of New York City, secretary of the Congregational Commission on Missions, "is moving rapidly when the vastness of the work is taken into consideration. Over 2,400 American-trained workers are employed in Congregational home and foreign missions. The total annual expenses of the work is about \$5,000,000 and the total amount of missionary property, including vested funds, is about \$50,000,000.

"In this country the homeland societies employ over 1,800 missionaries who labor in over 2,000 churches; they conduct more than fifty schools and colleges with over 400 teachers and 8,000 pupils. Every year they help to build 120 new churches and a third as many parsonages. They help each year to establish over 100 new Sunday schools and publish millions of pages of literature for religious education.

much fall work cannot be accomplished, it was reported Friday morning.

The storm Thursday night was the final straw added to the farmers' burdens and the only hope that agriculturists may again get abreast of their seasonal work lies in the possibility of continued warm weather for several weeks, it was stated.

Remainder of the potato crop, it is conceded, is almost a total loss from ground rot and it is problematical as to how much can be harvested of other crops in time to save an appreciable share of the corn and cabbage, it was stated.

The ground is so thoroughly steeped in moisture now that it is impossible in many sections of the

county to get onto the fields with harvesting machinery.

It also was stressed that a considerable amount of threshing remains to be done; best harvest is not underway; very little silage has been cut and the cabbage crop is yet to come. Given better working conditions even, the farmer is then faced with the problem of finishing his harvest and still getting his fall ploughing and other late duties accomplished.

The motor car industry was startled when Buick presented the New Buick, with an engine vibrationless beyond belief.

If you have driven this great new car, with this remarkable engine, you know why.

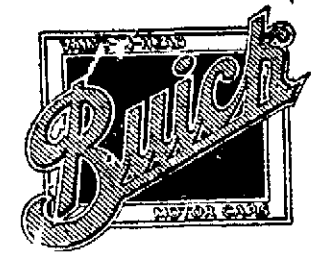

Its fluid smoothness makes other motor cars seem rough, harsh, noisy. The plain truth about it sounds like

exaggeration, it is so effortless at every speed.

People who have driven Buicks for years, and people who have owned much more expensive cars, are captivated by the luxury of this one.

The industry was amazed and you will be too, when you drive this marvelous motor car. Everybody says, and we repeat it: "You never have driven anything like it."

## A great value in a great week of value giving

The ninth National Karpen Week opens today, and its importance to you is impressively proved by the group above, offered at a specially reduced price for this event.

Authentic in ancestry of line, Flemish and French influences blend in its designing. Deft handcarving distinguishes its frames of real mahogany. The finish brings out the natural charm of the grain and color. Rare harmonies play in the mohair of sofa and arm-chair, in the silken damask topping the cushions, in the frieze of the high-back chair. Expert springing, rags and cotton, and

loose Karpenesque cushions lure you to laze in luxurious depths. Here is no ordinary "sale" suite, but Karpen quality through and through, certified by the Karpen nameplate. Yet its extremely low price, for one week only, October 2nd to 9th inclusive, is not its least attraction.

It typifies many equally desirable pieces which we are featuring at extra savings this week; from occasional chairs and handwoven fiber suites to groups for living room, library, and hall. No home lover should miss this greatest furniture event of the season. Come in today while our exhibits are complete.

# "SENTIMENTAL" VOTE FAVORS CARDS IN SERIES

## Two Star Players Forced To Watch Important Games From Places On Sidelines

Bengough, Baldes Out With Injuries; Stage Hand 1st Fan at Gate

### SERIES DOPE

BY JOE WILLIAMS  
(Presenting a somewhat intelligent size-up of the two competing teams with few if any holds barred.)

New York—(P)—Fans were out early for the opening of the world series Saturday. Some of them were up all night.

A line starting at 10 o'clock grew steadily before the entrances of the Yankee stadium where the first two games of the series between New York and St. Louis will be played. They sought a part of the 35,000 grand stand and bleacher tickets made available to customers over the counter. Twenty-five thousand reserve tickets were snapped up in record time on the mail order basis with an over subscription of 15,000 when club attaches suspended the count. Some of these tickets fell into the hands of speculators and high prices were asked.

The National League entry does not lack support in spite of the fact that the first two games are played in alien territory. Many St. Louis enthusiasts could not wait until the teams reach the Mound City Tuesday and so moved to New York to be among the 65,000 present being cast almost solely for the visitors.

Enthusiasm of youth meets the experience of years. The Cardinals won a pennant with one of the youngest teams in the majors. The Yankees roll call shows eleven players who have previously played for baseball's highest honor. Speculation was largely at even money, but some odds of 6 to 5 were reported on the same price on ultimate victory in the series.

Managers Huggins and Hornsby declared their firm faith in their players before the opening game. Interest was added to the managerial equation by the fact that Hornsby, as a Cardinal recruit, learned his first major league lessons at the knee of Huggins, then manager of St. Louis.

Two star players are to be spectators. Benny Bengough, New York catcher, is out with a broken arm and a strained knee limits Ray Blades, fast Cardinal outfielder, to pinch hitting.

The honor of being the first fan at the gates was won by Albert Allen, a 38 year old stage hand, who purchased a wooden box from two Bronx youngsters and settled himself deep in an overcoat in his place at the forefront at 10 o'clock Friday night. The wait for him was old stuff. He has missed few championship games in ten years.

Two youngsters from Swoyerville, Pa., Andrew Katchmer and Albert Kusma, borrowed a roadster to drive here in time to be among the first in the line.

Harry Kaiser, a 24 year old printer, who headed the procession in 1923, walked by to look at the stragglers, but denied that he was going to join the sleepless. A few hours later, however he sneaked shamefacedly in line. "You know how it is," he said. "You think you are cured and then you find you are just as much a bug as ever."

## STANFORD COACH TO STAY IN WEST

Famous Pop Warner of Stanford, Master of Trickery, Likes Golden West

Palo Alto, Calif.—Glenn S. "Pop" Warner, famed coach of the Stanford football team has no intention of returning to the east to coach.

The veteran mentor, who is regarded as America's trickiest football tactician, flatly denies that rumors circulated during the summer that he does not intend to remain with Stanford.

"I'll stick here as long as they want me," he said. "I like the west—and I like western football. The best football in the country is being played in the west today."

Warner has a tacit understanding

Catchers—O'Farrell of the Cards has it all over Collins of the Yanks and besides he is one of the swiftest birds that ever girroted an umpire.

Pitchers—This is a toss-up from where we sit and believe it or not we are sitting in a spot where it's easy to get a real line on toss-ups. Shockers will be in there trying, and we hope it gets him more than it used to get Bryan.

First Base—Bottomley or Gehrig? Personally we like Hal Chase. Of course, Hal wasn't always good to his mother but then there are other things in this vale of tears besides the cancelled checks Harry M. Daugherty burned.

Second Base—This is practically a stand-off between Lazzari and Hornsby, with Lazzari standing off so far that he is hardly visible to the Ziegfeldian, or undraped eye. Signals 4, 18, 23, shift, 42!

Shortstop—Thevenow, 255, and Koenig, 268, will be in there wearing uniforms. You can say that for them anyhow. Or, if you are short of words, you can say less and yet cover the subject adequately.

Third Base—Dugan or Bell? Dugan snores in a more enticing tempo and wears a bigger Elk tooth. This gives him the edge. Bell invented the telephone but his first name, Lester, was jammed on him by an angry relation.

Left Field—For the Cards, Blades; for the Yanks, Meusel; for the champion, Miss Edler; for that rundown, nervous condition, try Pepsa. At the bell Dempsey was sroggy and Tunney turned to page 356 to see what to do next.

Center Field—Douthit is eight points higher than Combs. This looks like a fine spot to sell.

Right Field—Ruth has a shade over Southworth. In fact, with that froth he would have the shade over a fair sized town.

Managers—What with Hornsby running the Cards and Huggins the Yanks, there will be "h" to pay which ever wins. (Call them hounds of sheriff, I'll surrender.)

Umpires—This is a tough one. Or, to be specific, four tough ones.

Judge Kenesaw Mountain Landis—If the weather is fair and there are enough cameramen on the field the old boy ought to break his 1925 record when crashed into 1478 pictures, not including the 429 indoor flashlight shots.

With Stanford football authorities that he remains until one or the other is dissatisfied.

Football is developing more rapidly in the west, because there is more time to train out here, he says. Weather, which keeps teams indoors much of the time in the east, is favorable practically the whole year around out west.

Warner started football circles when he instituted winter outdoor practice at Stanford last January, giving his team six weeks of intensive outdoor training. Couple this with spring training, and good football weather up to the end of the season in the fall, and you have the reason for the west's supremacy, according to Warner.

Warner visited his old stamping grounds at Pittsburg last summer, but made no statements about returning he says. "As long as I make my cakes out here, the west is plenty good," he said.

Milwaukee—Joey Sancer. Milwaukee featherweight, defeated Ray Miller, Chicago, (10.)

## THEY'LL "CALL 'EM" IN WORLD SERIES

TOMMY CONNOLLY GEORGE HILDEBRAND BILL KLEM HANK O'DAY

New York—Here are the four umpires in charge of the officiating at the world series between the Yankees and Cardinals this year. Tommy Connolly and George Hildebrand represent the American League and Bill Klem and Hank O'Day the National.

Each has seen many years of service in the majors, with Klem and Connolly boasting longer regimens than the other pair. Klem has been "callin' 'em" since 1891. Connolly

Klem and Hank O'Day the National, since 1898. Many of the players on the contesting clubs weren't even born when Klem started, or when Connolly did, for that matter.

Hank O'Day has done more than just don a mask and chest protector.

For a while he managed the Cincinnati Reds, with varying success. He soon returned to his old love, umpiring, and is well known to fans around the Johnsonian circuit—and is popular (if an umpire ever achieves such distinction).

When Appleton high met Manitowish this afternoon at the Ship city, they tried their wares against two of the heaviest lineups an Orange team has bucked in a few seasons.

One ship tackle weighed 266 pounds and another 215. However, Art Fishbeck, who beat Appleton singlehanded at the state cage meet last spring at Madison, wasn't able to take his licks at the Orange again, eliminating one jinx. Fishbeck, who is a classy forward, was slated for a halfback berth but a flock of bolts lost him his chance temporarily.

Manitowish students were ready for a gala celebration. The school's band followed by the student body and a group of hacks and hearses were to march to the field before the game. The hacks and hearses were supposed to carry off the remains of the Appleton team after the game.

Three former Milwaukee Brewers were playing in the lineup of the St. Louis Cardinals in the world series. Taylor Douthit, hard-hitting and youthful gardener, Wee Willie Sherdel and Lester Bell are the men. Sherdel ranks as one of the most important moundsmen in the series after a strong ending to a fair season. He is a lefty and a slowballer, both trials to the Yanks. Bell is the star shortstop of the Card and a leading hitter of the loop. His mighty warclub kept the Hornsbymen up there all season. It is expected to count heavily in the series.

Well, Dave, everybody's doping it so I might as well get in also. Michigan looks like the best bet for the conference title with Northwestern runnerup on account of an easy schedule. N. W. should have little trouble beating Indiana twice, Iowa and Purdue and should beat Chicago. This will give it a clean slate in spite of the fact that there are better teams in the conference. Minnesota would be a good second if she didn't have to play Michigan twice. Illinois and Wisconsin should tie for second with one loss each. Iowa, Purdue and Indiana should finish near the bottom in the order named. At Ohio State, Jack Wilson is past due and liable to spill the beans and end on top of the heap Lookout for Ohio state.

If you promise not to laugh here is my forecast for the Badgers. First, Marquette 23, Lawrence 7. WISCONSIN 30, CORNELL 0. WISCONSIN 19, KANSAS 0. WISCONSIN 23, PURDUE 0. WISCONSIN 24, INDIANA 0. WISCONSIN 13, MINNESOTA 10. WISCONSIN 7, MICHIGAN 16. WISCONSIN 14, IOWA 3. WISCONSIN 20, CHICAGO 7. "Gas Of The Junction"

The teams will line up as follows.

## CARDINALS ARE YOUNG PLAYERS

Manager Hornsby's Sluggers Average 27 Years of Age; Clough Is 20

St. Louis—(P)—The Cardinals, whose roster of 31 players cost only \$20,000, are a young crew. The average age of Manager Rogers Hornsby's sluggers is 27 years.

The average age of the outfielders and infielders is a few months less than 25; that of the catchers 28, and the pitchers less than 28.

Eleven of the squad are playing their first full season in a major league, and only seven of the crew have been with the Cardinals over a span of years. The latter are Hornsby, Sherdel, Haines, Blades, Bottomley, Sotheron and Toporcov, while the eleven who are playing their initial full-year swing in the big time circuit are Pitchers Reinhardt, Herman Bell, Hallahan and Clough; Catchers Vick and Warwick; and Fielders Douthit, Holm, Hafey, Thevenow and Flowers.

Clough tips the age beam the lightest with 20 years, while Grover Cleveland Alexander, 33-year-old campaigner of many major league seasons and a Cardinal acquisition from the Chicago Cubs, is the oldest. Clough has not pitched a full inning this season on account of his inexperience.

## Major League Records Of 1925 Outranked Marks Of This Year, Figures Show

Lance Richbourg, Brew Outfielder, Took 6 Different "Firsts" in A. A.

Chicago—(P)—Figured on paper, the world's series looks like just about a draw affair.

The Yankees go into the games as a club hitting .289, while the Cardinals have a season's average of .236 to exhibit with the National League flag.

Statistics on fielding, on the other hand, are decidedly in favor of the Hornsby crew. The Cardinals during the year made more double plays, triple plays, put-outs and assists than the Yanks but were charged with fewer bobbles.

Babe Ruth's .372 hitting is considerably better than anything the Cardinals can show, but despite the Yankees' better slugging as a team, seven St. Louis players finished the season with percentages of .300 and beyond, as compared with six of their series opponents.

Pitchers' records for the year are so varied in every respect that there is little chance for comparison, but survey of the flinging performances for the two clubs leaves little basis for choice.

The unofficial final figures released Saturday show the 1925 major records in all departments generally outranked by those of the year before.

One new all-time mark was set, however, in the 64 doubles collected by George Burns of Cleveland.

Ruth fell 12 short of his world's record in homers but carried off two other American League records in addition to having the most circuit drives of the season.

The slugger's stock work brought him the most runs, 129, and the most total bases, 355. Incidentally he wound up the year with each hit counting for a slight fraction under two bases.

Manush of Detroit was the leading hitter with the high year's average of .350. Gehrig of the Yankees led in triples, with 18.

Bob Falk of Chicago was the only player in the league in every game on the team's schedule. Race of the Senators led in total hits, with 641. Johnny Mostil of the White Sox led in base stealing with 24, nine below his league leading total of 1925. His team-mate Hunsfeld showed the way in sacrifices.

Washington led in club batting, with a .332 average, and Chicago in team fielding, with a percentage of .973.

George Uhle led the pitchers with a total of 27 victories for Cleveland, somewhat offset by 11 games lost.

Leading hitters of the season: Manush, Detroit, .350; Ruth, New York, .372; Fothergill, Detroit, .364; Heilmann, Detroit, .353; Burns, Cleveland, .359; Goslin, Washington, .354. Catchers: Chicago, .341; Fisks, Chicago, .343; E. Rice, Washington, .339; Simmons, Philadelphia, .339; Cobb, Detroit, .339.

Hazen Cuyler of the Pirates walked off with two individual records in the National, making more runs than any other player, 112, and leading with 35 stolen bases. He shared honors with Thevenow of the Cardinals in playing in all games on their respective schedules.

Although idle at the end of the season, Bressler of Cincinnati had the best batting average, .357. Brown of Boston led the league with 202 hits.

Hack Wilson of the Cubs was the home run leader with 21. Bottomley of St. Louis led in doubles with 39 and Warner's 22 triples for the Pirates led the circuit. Douthit of the Cards was credited with the most sacrifices, 37.

Cincinnati was pace-maker in team hitting, with a year's average of .290, while the Cubs were best defensively, with a fielding percentage of .975.

Rhem of the Cardinals topped the

winning pitchers with a string of 21, being credited with seven defeats.

Leading hitters among National regulars: Bressler, Cincinnati, .357; Christensen, Cincinnati, .353; Hargrave, Cincinnati, .353; Pittsburgh, .335; St. Louis, .335; Philadelphia, .329; Jackson, New York, .325.

Lance Richbourg, Milwaukee outfielder, was the outstanding player of the 1926 season in the American association.

Six different "firsts" are credited to him in the unofficial final records for the year released Saturday.

Richbourg topped the league in most runs, with 151, in total bases, with a year's total of 350, and in hits, 347, which he lined up during the pennant season, and the 28 hits that stretched into three-baggers was the year's best.

Additionally to leading the hitting while at bat 714 times, more than any other player although Toter of Indianapolis played in three more games, 157 the Brewer set the pace on the base paths, stealing 48 to lead the Association.

The ranking slugger of the season was Lebourneau of Toledo, who finished with a .377 average. Brief of Milwaukee led in home runs, 27, and Hays of St. Paul pounded out more doubles than anybody else, 51. The 40 sacrifices laid down by Sicking of Indianapolis made up the best total of the year.

Louisville won the flag with, properly enough, league leading hitting of .308 caliber. Indianapolis, however, looked best defensively with a .971 percentage in the field.

Piprass of St. Paul turned in the most mound victories, but 19 losing starts were charged against him. He won, whereas Cullop chalked up 20 victories for the Colonels while losing but eight of his starts.

Leading regular hitter: Lebourneau, Toledo, .377; DeVormer, Louisville, .365; Veach, Toledo, .352; Brif, Milwaukee, .352; Ellis, Louisville, .352; Brannon, Kansas City, .351; Duncan, Minneapolis, .351; McLenemy, Milwaukee, .351; Saul, Milwaukee, .347; Richbourg, Milwaukee, .345.

## SOX AND CUBS EVEN AFTER TWO BATTLES

Chicago—(P)—The Chicago city series shifted to Comiskey park Saturday with the White Sox and Cubs even after two games.

Nearly 12,000 braved rain in the National League team's home stands to watch the American Leaguers tie the count Friday by pounding three Cubs moundsmen for a 10 to 5 victory.

## HAROLD CARLSON WENT WELL WITH TAILENDERS

That game Harold Carlson of the Phillies pitched against the Reds just before the end of the chase was one of the longest of the season. Carlson worked the entire 15 innings and though touched up considerably, always bow down in the pinch. With a tailender club, Carlson certainly has done well this year.

Peoria, Ill.—(P)—Glen Ekege, Des Moines, won from Mike Dale, Decatur on a foul, in the fifth. Lew Terry, St. Louis, won a decision over Jimmy Dale, Decatur (8).

Chicago, Ill.—Archie Bell, Brooklyn bantamweight, and Jimmy McDermott, Terre Haute, boxed a draw (10).

## CARROLL SWAMPS MILTON, 68-0

Lund and Newman Feature Slaughter as State Champs Bury Weak Rivals

Waukesha—Carroll lifted the lid off the football season here Friday afternoon by squelching Milton college, 68 to 0.

Touchdowns dotted the entire performance and long runs by Al Newman and Elmar Lund were the feature of the one-sided runaway.

Carroll showed a complete mastery of defense the first half and in the final part of the game the offensive, boosted the total points to 68 to 0.

Elmar Lund rated right behind Newman for good playing. He sprang away for 80 yards in the first half and beat all his opponents to the goal.

Lumpus, Carroll, Lund, Newman, and Elmar Lund were the feature of the one-sided runaway.

# MAROON-FLORIDA GAME ATTRACTS MUCH ATTENTION

Two Intersectional Tilts on  
Program as Big Ten Teams  
Open Seasons

Chicago, Ill. — (AP) — The midwest plucked into the 1926 intercollegiate season with a handful of intersectional contests sprinkled among many more than a hundred games.

It was getway day for both Western Conference and Missouri valley teams. None of the games had bearing on the title race and interest centered in the Florida-Chicago game at Stagg Field and the Tulane-Missouri tilt at Columbia. Purdue, of all the Big Ten teams, alone sought beyond the borders of the middle west, journeying to Annapolis to meet the Navy.

Coach Tom Sebrine brought 28 Gators from which to select a combination to oppose Chicago, with the outcome of major interest as giving a first indication of what the year holds for A. A. Stagg. The Maroons with six letter men as a nucleus are the most intriguing question mark in the conference race.

Missouri, two-time Missouri Valley champions, encountered in Tulane a team built around a sizeable carry over of material from the varsity which was second in Southern Conference standing last fall and battled the Thers to a standstill at New Orleans last year in a 6-6 tie.

Oklahoma A. and M. was at Ann Arbor to test last years Big Ten champions.

Minnesota was host to North Dakota while the South Dakota varsity was in Evanston to open the year for Northwestern. Bob Zuppke had Coe college for his first opponent at Illinois. Wittenberg was at Ohio State. Colorado Teachers college was at Iowa City, and Indiana renewed rivalry with DePauw. Cornell college was at Madison to usher in the season for Wisconsin.

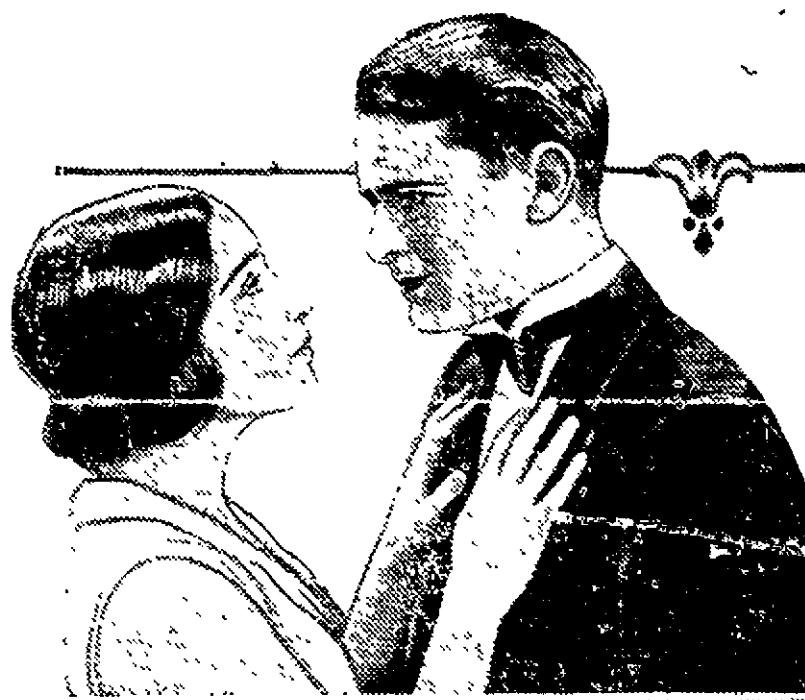

Knute Rockne had Beloit for Notre Dame's opponent at South Bend, and a clash of old rivals brought Drake and Nebraska together at Lincoln.

The scheduled game between Iowa State College and Washington University at St. Louis was postponed until Monday because of the opening of the world series. Soggy fields were spread beneath lowering skies for most of the day's battles.

## Few New Citizens Change Names In Outagamie-co

Contrary to an almost universal custom in many cities for new citizens to either drop entirely or change their names when admitted to citizenship the immigrants to Outagamie-co who do so are in the vast minority, according to the records of Harry A. Snannon, clerk of circuit and municipal court.

"The records show," Mr. Shannon said, "that considerably less than an average of 5 per cent of new citizens here are not satisfied with the names they brought with them from every corner of the globe."

Out of citizenship classes numbering more than 150 each time it is rare if more than four or five men or women petition the court for a new cognomen.

"When it does occur here it is usually from among groups of Polish, Austrian, Russian or Greek representation. Even then the applicant usually merely requests that he be allowed to deplete a few tongue twister syllables from his surname," Mr. Shannon said.

In these instances either the unwanted letters are dropped or an English interpretation given to similar sounding names; it was pointed out. In Milwaukee alone an average of an alien a day petitions to change his name, statistics show.

## BADGERS START YEAR WITH STAR CORNELL SQUAD

Opening Day Revival of Little's Cardinals Undeclared for Two Seasons

Madison — (AP) — Wisconsin's 1926 gridiron season opened here Saturday with the Badgers arrayed against the Cornell College squad and its record of two seasons without defeat.

Twenty two of the Cornell players arrived from Mt. Vernon, Iowa, led by Coach Dick Barker. With Captain Burghardt at center and the fast half-back, Crabtree, the Purple comes to Camp Randall rated as one of the best teams in the Mid-West conference.

George Little, Wisconsin's fighting coach, made no optimistic comments on the eve of the first game. He had finished a week of hard scrimmages, several of which were prolonged up to dusk, in an effort to whip out the last vestiges of raggedness which had been noticeable in the Cardinal eleven up to a short time ago.

## JAKE LANUM SLATED FOR GRANGE'S JOB

Champaign, Ill.—The man who in all probability will succeed "Red" Grange as quarterback on the University of Illinois team is "Jake" Lanum of Champaign, formerly of Decatur.

Lanum is the third brother who has been on the Illini squad and gives promise of being the most famous, although both of his kin were stars in their day.

The present Lanum stands 6 feet 1 inch, weighs 187 pounds and is fast. He kicks much better than Grange, and is also a better passer, although of course not in Grange's class as an openfield runner. His playing can be best compared with that of Earl Britton the man who did so much to guard the red phantom until he could find an opening.

and the adjoining sloughs and bayous are filled with water, making hunting conditions ideal, but there are not many birds this year, even at the best known duck holes, local nitrods report. There are many out of town hunters here, and the hotels are doing good business.

There has been some black bass fishing here this fall, but high waters due to rain provides much food and the fisherman's bait isn't effective.
